Japan's Heavy Attack Repulsed In Philippines

Nipponese Fail To Crack Gen. MacArthur's Defense In Bataan

HEAVY LOSSES ARE INFLICTED ON JAPS

Offensive On Wide Scale Is Being Continued By Large Jap Force

By JOHN HENRY
International News Service Staff Correspondent

WASHINGTON, Jan. 23.—Japan's all-out offensive in Luzon has been repulsed with "heavy losses" to the enemy in brilliant operations which have won the American-Philippine forces of Gen. Douglas MacArthur the personal praise of Gen. Sir Archibald Wavell, supreme commander of the armies of the United Nations in the Far East.

Announcement was made in a war communique today.

The department said that the legions of Gen. Masaharu Homma kept up attack "without regard to casualties" for the last 24 hours, but with no success.

Japs Reinforced

Gen. MacArthur's defense lines, although withstanding the onslaught, faced an adversary able to replace their losses, it was pointed out. The war department asserted that the Japanese forces have been strongly reinforced. Military experts believed that reinforcements were drawn from troops which were reported to have landed in the Lingayen Gulf and Subic Bay regions.

Japan Is Making All-Out Attempt To Capture Manila Bay

By JOHN HENRY
International News Service Staff Correspondent

WASHINGTON, Jan. 23.—Japan is moving to capture Manila Bay at any cost, military experts agreed today as Nipponese hordes under Lt. Gen. Masaharu Homma surged against the American-Filipino defenses on Bataan Peninsula.

Qualified tacticians explained that capture of Manila port facilities would be vital to insure success for Japan's offensive against other possessions of the ABCD nations in the orient.

The greatest battle in the Philippine campaign was raging after Japan reinforced its 200,000 troops already in action against the vastly out-numbered defenders. The new all-out onslaught represents the greatest attack on America's armed forces since the terrific combat of the first World War.

Over 15 Mile Front

The conflict is now believed to be spread over a 15 mile front in North Luzon, with Japan's entire 14th army and other units striking at the hard-fighting little army of defenders.

Washington observers meanwhile, coupled Gen. Homma's full-force drive against Gen. Douglas MacArthur's troops with information from a high government official

Leaps To Death From Hotel In New York City

(International News Service)

NEW YORK, Jan. 23.—A young man engaged in a life and death debate with a maid at the Hotel New Yorker today, and then, shunning her please that he crawl back into the room from a 22nd floor window ledge, plunged to his death.

Although he had registered yesterday as John King, of Cleveland, notes and a letter from his draft board identified him as John A. Stevenson, Jr., 27, of (506 Elwin avenue) Springdale, Pa. The letter instructed him to report for a pre-induction examination.

Two notes, both sealed, were addressed to Louise Stevenson. A third, which was unsealed, said his hotel registration was fictitious and requested that the others be not opened except by the Stevenson woman.

NAZI LINES WAVER AROUND BORODINO

Report Town 20 Miles West Of Mozhaisk Taken—Newly Arrived Nazis Are Captured

(International News Service)

MOSCOW, Jan. 23.—Attacking with ever-increasing ferocity, Red army troops were reported menacing Vyazma, 140 miles southwest of Moscow today as they persistently shoved the Nazis backward on the central sector of the front.

Other Soviet forces were reported engaged in a violent battle near an "important town"—believed to be Rzhev—west of Kalinin and northwest of Moscow, according to the newspaper Izvestia.

Driving Westward

Simultaneously the Russian forces that captured Mozhaisk were driving westward against wavering Nazi lines at Borodino, scene of the historic battle that opened the gates of Moscow to Napoleon but led to his eventual disastrous defeat.

(London newspapers reported the Soviets either are already in Vyazma or are about to enter it.)

The midnight Russian high command communique reported, meanwhile, that Soviet forces had reoccupied Uvarova, 20 miles west of Mozhaisk.

Five Nazi planes were shot down in the Moscow area yesterday and 15 the day before, the communique

Australia's Defensive Outposts Are Attacked

(International News Service)

MELBOURNE, Australia, Jan. 23.—Japanese forces attacked Australia's defensive outposts today and the commonwealth launched preparations for a fight to the finish.

A series of official pronouncements indicated that Japanese forces have occupied Rabaul on New Britain island, 800 miles from the Austrtlian mainland, and also have effected landings on the shores of New Guinea and in the nearby Solomon island.

Army Minister Francis M. Forde told the nation:

"The attack on Rabaul must be interpreted by Australians as the first stage of a movement to attack Australia."

An official communique issued by Forde and Air Minister Arthur Drakeford said Japanese landings had been reported on New Guinea and in the Solomon islands.

It added that active Japanese air reconnaissance occurred over widely dispersed points of New Guinea and the Solomon islands this morning, but that no damage was reported.

The announcement was issued as Australia, under the menace of a Jap invasion, prepared to defend its vast shoreline against any attacks the Japs may hurl.

WASHINGTON, Jan. 23.—Releasing a report that American volunteer airmen in Burma have bagged between 90 and 100 Japanese planes with the loss of only three of their own ships and men, the house appropriations committee today approved the largest spending bill in history—a measure providing $12,500,000,000 for new planes and equipment.

The tremendous appropriation bill calls for immediate construction of 33,000 new planes, of which 23,000 will be powerful combat types complete with bombs, guns and all equipment.

Build For Knockout

Rushing the measure to the floor—where speedy passage was expected—the committee made public testimony by Lt. Gen Henry H. SINGAPORE, Jan. 23.—Severe fighting on most Malayan battle fronts and heavy British artillery blows on the Jap invaders were announced by the British Far Eastern command today.

The communique indicated action was in progress on the eastern, central and western fronts and added that enemy planes yesterday were active against the British forward troops.

"Yesterday in the Mersing area (on the east coast), contact with the enemy continued," the communique said.

"Our artillery has been active in harrassing the enemy with effect."

North of Mersing, according to yesterday's communique, the British ambushed a number of Japanese bands, causing a heavy toll in casualties.

War Fund Gets More Fine Gifts

Total Receipts Are Now Well Over $30,000 Mark, Duff Reveals

Total receipts reported in the Red Cross War Relief Fund are now well over the $30,000 mark, and General Chairman Walter W. Duff, is confident that the county quota will be reached within the next few days.

A partial report received from the Carnegie-Illinois Steel Company shows $1,160 has been contributed by the steel workers, while new 100 per cent concern reported are Garland Manufacturing Co., Eckerd's Drug, and National Radiator Company. Mt. Jackson Junior Red Cross reported $31.45, and reports from the Second ward house to house canvass, under the direction of Mrs. Blake Waldo, show that $4,000 has been received in that ward alone to date.

With the Ellwood City district doubling its quota of $7,000 and with more coming in from that area, the Ellwood City community is showing the way for other parts of the county, but honors still must go to Mahoning township for its fine showing of $2,000.

Detroit Strike Is Postponed

(International News Service)

DETROIT, Jan. 23.—Although a tense atmosphere still pervaded Detroit—vital industrial center of the nation's war efforts—a strike of A. F. of L. city employes which has threatened to tie up all city offices and the municipally-owned street railway and bus system today was postponed indefinitely.

The strike, originally scheduled for 4 a. m. today, was temporarily called off less than six hours before the deadline, after some 1,500 union members voted to delay action in accordance with a telegram from Undersecretary of War Patterson urging them to "negotiate, mediate and arbitrate, resorting to the war labor board if necessary."

That the strike plan was not completely abandoned was indicated as city workers, by a vote of 1,320 to 218, decided to take another ballot—this time by mail.

There was no further news of the operations nead Kawkereik, at the northern end of the Burmese Panhandle, where the Japanese are trying to open a path to Moulmein, vital west coast seaport.

Informed quarters asserted major engagements on frontier outposts are unlikely, as it is believed that the high command policy is opposed to frontal contacts under such conditions.

RIO DE JANEIRO, Jan. 23.—The Latin-American conference was caught in a new diplomatic snarl today as Argentina once more balked at the proposal for a joint rupture of relations with the Axis powers.

The Argentine government precipitated the new difficulties when it "disauthorized" the approval given Wednesday night by Argentine Foreign Minister Enrique Ruiz-Guinazu to a resolution severing relations with Germany, Italy and Japan.

BOMBERS ATTACK JAP CONCENTRATION

Greatest Aerial Offensive Of Pacific War Is Staged By Dutch Bombers

By JOSEPH J. KOSAK
International News Service Staff Correspondent

BATAVIA, Jan. 23.—In one of the greatest aerial offensives of the Pacific war, Netherlands East Indies bombing and fighting planes today scored 12 direct hits on eight Japanese warships and transport vessels without suffering a single loss.

On the heels of Washington's announcement that huge reinforcements of heavy bombers are being "poured" by the United States into the theatre of combat, a formidable Dutch war squadron roared out of its N. E. I. base to strike at the aggressor in the Straits of Magassar between Borneo and the Island of Celebes.

The attack was an overwhelming success.

Targets Of Attack

A brief communique describing the operation, obviously designed to prevent the enemy from reinforcing detachments already landed in the Dutch East Indies, listed the victims as follows:

One large warship (which might be a battleship, a battle cruiser or an aircraft carrier).
One heavy cruiser.
One additional cruiser.
One large transport.
One destroyer.
Two large transport ships.

British Forces Drop Back In Malaya

Japs Seeking To Cut Off Retreat

Nearest Point Of Enemy Attack Is Probably 70 Miles From Singapore

REPORT FIGHTING OCCURS IN BURMA

(International News Service)

LONDON, Jan. 23.—British military authorities interpreted today's Singapore communique as revealing a general British withdrawal at all points of resistance in Malaya—on the east, west and center fronts.

It was stated that the Japanese apparently are making an effort to cut off the British line of retreat by means of a pincers maneuver.

Whether the retreating forces will be able to restore a general defensive line is not clear at present, these authorities said.

They added the nearest point of the Jap approach to Singapore is probably Batu Pahat, about 70 miles distant. But they admitted there was an "element of guesswork" in this conjecture.

Fighting In Burma

Fighting was declared to be continuing in Burma but the exact position of this battle line was not known in London.

The belief was expressed, however, that the Japanese have not made any further considerable progress.

Japanese landings in New Guinea and the Solomon Islands north and northeast of Australia "obviously directly threaten the Australian north coast," it was stated.

British dispositions to meet and offset these Jap maneuvers were termed a "matter of high strategy in the hands of the Anglo-Australian commands."

JAPAN'S HEAVY ATTACK REPULSED IN PHILIPPINES

(Continued From Page One)

tions, the largest yet launched by the Nipponese, is being executed by what military experts described as an army of nearly 200,000 men.

The Nipponese are continuing their wide scale offensive against Gen. Douglas MacArthur's forces, and during the past 24 hours fighting was "extremely heavy," the war department stated. Japan's troops have been "strongly reinforced."

The text of the communique follows:

Day's Statement

"Philippine theater: The Japanese are continuing to launch heavy attacks on Gen. MacArthur's positions on the Bataan Peninsula. During the past 24 hours he fighting has been extremely heavy. The enemy's assault troops have been strongly reinforced. Nevertheless all Japanese attacks have been repulsed with heavy losses. Apparently the enemy has adopted a policy of continuous assaults without regard to casualties, hoping by great superiority in numbers to crush the defending forces.

Gen. Wavell Congratulates

"Gen. MacArthur is in receipt of a message from Gen. Sir. Archibald Wavell warmly congratulating him and his command for their magnificent defense of the Philippines.

"Reports from Mindanao disclose that the Japanese troops occupying Davao have organized a local military force composed of some 10,000 Japanese residents of that community.

"There is nothing to report from other areas."

Singapore's strategic position in the path of the world's trade routes has made it one of the principal sea ports, the department of commerce says.

BRITISH ARTILLERY BLASTING AT JAPS IN MALAYA BATTLE

are in contact with the enemy in the Chaah area (about 75 miles above Singapore), where fighting is now in progress.

"In the west, enemy activity has increased in the Batu Pahat area, with indications of some infiltrations to the east."

This official acknowledgment of increased Jap activity around Batu Pahat followed earlier front line reports that the Nipponese infiltrations there had developed into a full-scale assault.

There was no indication, however, that the Jap attackers were making appreciable headway.

"Heavy fighting continues on the north about Bukit Bayong," the communique said.

"There was considerable enemy activity throughout the day against our forward troops.

"A small formation of our fighters encountered a superior enemy force in the Yongpeng area this morning. One of our fighters is missing as a result of the engagement.

Singapore Raid

"Normal patrol and reconnaissance activities were carried out by our aircraft.

"The force of enemy aircraft which raided Singapore yesterday consisted of about 54 heavy bombers, escorted by fighters.

"Our fighters shot down six enemy planes for certain. Two more probably were shot down and others were damaged.

"Military damage was confined mainly to buildings and casualties were slight. Civilian casualties were 58 persons killed and 170 injured.

"Enemy aircraft again raided Singapore this morning. They were intercepted by fighters which destroyed one bomber certainly and two probably."

On the western front in the Muar river region, the Japanese hurled additional troops into battle and converted their infiltrations into a major assault on the British flank.

Major General Henry Gordon Bennett, commander of the Australian troops in Malaya, revealed fighting has begun in the east coast area held by an Australian infantry force.

In this region the Japanese are believed to have filtered down from various points to the north. An Australian outpost yesterday ambushed one Japanese party, inflicting exceptionally heavy casualties, and then withdrew.

There was a possibility that the Japanese are attempting to develop the east coast actions into a second thrust against Singapore.

Latest advices from the front said the British Indian force in the north adopted the Australian tactics and ambushed a detachment of Jap bicycle troops, annihilating 30.

JAPAN IS MAKING ALL-OUT ATTEMPT TO CAPTURE MANILA BAY

(Continued From Page One)

that American bombing planes are pouring in a steady stream toward the Pacific battle arena to halt aggression.

The island invaders can not afford further delay, according to experts, because the increasing might of the U. S. air arm already has endangered the Mikado's preliminary gains. This fact, experts concluded, has forced Gen. Homma into his frenzied frontal assault upon the Bataan defenses which stand as a barrier to Japanese control of Manila Bay.

The bay, tacticians said, now is of paramount importance to speedy continuation of the Nipponese campaign against the Netherlands and even Singapore. It offers the most desirable base of operations.

If not taken by the Japs, Manila Bay, on the other hand, represents a dangerous salient in the flank of Nipponese invasion of the Indies, Malaya and Burma. Experts pointed out also that reinforcement of this area by American flying fortresses would open an easy gateway for devastating attacks upon Japan's flank.

Best Harbor In Orient

Manila Bay represents one of the best harbors in the Orient. The city of Manila, where docks are located, offers all necessary facilities to supply a fleet. The waters are deep and the docks large. Sheltered in the cove formed by the bay and about 20 miles from the China Sea, the Manila docks, moreover, would afford a certain amount of natural protection for anchored ships.

While some of the docks have been smashed in Japanese air raids, experts said the Japs would have little difficulty in making repairs. It is believed, in fact, that the invaders already occupying Manila are busy restoring damaged facilities in anticipation of Japan's conquest of the bay.

Two formidable obstacles staunchly stood between Gen. Homma and his objective—Gen. MacArthur's valient soldiers and the Corregidor fortress.

The 54-year-old, English-speaking Japanese commander launched a smashing drive to break the American-Filipino defense units. War experts said the invaders apparently hope to thrust through General MacArthur's lines, then hurry over a highway which runs along the East Bataan shoreline to the tip of the peninsula.

Corregidor Next Target

Provided this operation is successful, military men asserted, the Japs then will face the task of reducing Corregidor. Experts predicted that Corregidor would be subjected to a continuous barrage if General MacArthur's thin line finally crumbles.

The war department disclosed that attacks were made "all along General MacArthur's line on Bataan," with particularly heavy fighting on the left and center. Experts estimated the conflict ranged over a 15-mile front.

Japan's entire 14th army has been thrown into the Luzon campaign, the war department stated, announcing, in addition, that the enemy has landed reinforcements in Lingayen gulf and Subic bay.

The total strength of the 14th Army, including as many as 10 divisions, was estimated by war department authorities as "nearly 200,000 men." This forces, along with other units believed operating in the same region, would give the invader more than 200,000.

Experts gravely asserted that the overwhelming manpower Japan is using eventually may bring about defeat of the vastly outnumbered defense troops. Japan is able to replace its losses, observers pointed out, while General McArthur must go along without reinforcements.

While observers considered America's position in the Philippines precarious, an authoritative government spokesman in Washington painted an optimistic picture of the nation's war effort in the Pacific arena.

U. S. Bombers Arriving

He said that U. S. Army bombers are pouring into the Oriental theater and have begun to offset the advantages Japan obtained in its stab-in-the-back attack December 7.

Sinking of Japanese naval and merchant ships by the Flying Fortresses has relatively increased America's sea force, he pointed out. The high spokesman asserted that Japan's bombardment of Pearl Harbor and other outposts at first seemed to have destroyed American naval control in the Pacific.

Increasing tempo of bomber production and the fact that reinforcements are en route to the south Pacific, he said, has given America sufficient air power "to plug leaks in the west."

This government official, who demanded that his identity be withheld, also informed the press that the fact plane production was underway at the outset of the war proved a vast help to the American cause.

In addition, he said the United States was able to move 600,000 troops shortly after hostilities began. He concluded this nation is more strongly fortified on the Pacific coast and at such points as Hawaii than ever before.

Reviewing the tides of the war, he emphasized the importance of the unified command of the ABCD nations and inferred that Japan soon will pay a heavy penalty for its failure to respect disarmament treaties and the territorial integrity of other nations.

Frank J. Roeder of 40 North Mill street passed away Thursday evening at 9:28 o'clock in the New Castle hospital. He had been ill about three weeks.

Born in New Castle, a son of Jacob and Minnie Snyder Roeder, Mr. Roeder had been a resident of this city all his life. He was a member of St. Joseph's church. Mr. Roeder was preceded in death by his father on October 26, 1930.

Surviving are his mother, Mrs. Minnie Roeder, with whom he made his home; one brother, Charles J. Roeder of this city, and one sister, Mrs. Arthur Gresham of Youngstown.

Funeral mass is to be celebrated in St. Joseph's church on Monday morning at 9:30 o'clock. The funeral procession will leave the A. Darrell Burke funeral home, 319 North Jefferson street, at 9 o'clock. Interment will be in St. Joseph's cemetery.

The family will receive friends at the Burke funeral home Saturday evening from 7 to 9 and Sunday afternoon and evening from 2 to 4 7 and 9 o'clock.

Barnes Funeral

Funeral services for Mrs. Marian Peak Barnes of Forrestville were held last Sunday afternoon from the Unity Baptist church of Harlansburg with the pastor, Rev. L. Matthewson, in charge. During the services Dorothy Harlan and Mrs. Delbert Eakin sang two selections, accompanied by Gladys Matthewson.

Pallbearers were Gaylord McFarland, Raymond McFarland, Kenneth McFarland, Robert Buxton, Frank Buxton and James Buxton, cousins of the deceased.

Interment was in Slippery Rock cemetery.

Brown Funeral

Funeral services for Wells A. Brown, New Bedford, were conducted Thursday afternoon at 2 o'clock from the Hopewell Presbyterian church, New Bedford, with Dr. R. W. Veach officiating.

Pallbearers were John Gardner, Elmer Surry, Lloyd Goodge, Edward Thompson, Clare Stephenson and Arthur Maronde.

Interment was in Hopewell cemetery.

Card Of Thanks

We wish to thank our friends, neighbors and relatives for kindness and sympathy extended us during our recent bereavement. Also, for floral tributes and cars donated.

A local weather observer reminded Pa Newc today that the present winter has been an unusual one in the way of sunshine. There have been few days so far this winter in which the sun has not been shining most of the day, Pa Newc was told, which is most unusual for winter in this district.

Mayor Charles B. Mayne today in police traffic court excused only two of almost a dozen persons who had tags for violation of parking meters or other traffic irregularities. During this month more than 400 tickets have been issued by city policemen for alleged traffic misdeeds, and only those who have good excuses escape a fine.

New Castle and Lawrence county residents seem, according to opinion gained by Pa Newc, to be about unanimous on the thought that daylight saving time schedules in winter will achieve little beneficial result in this area. All will grant that daylight can be saved in summer, but it is rather perplexing to discover how it is to be saved in winter.

said. Four Russian planes were listed as lost in Wednesday's fighting.

Recently Arrived Nazis Taken

German prisoners captured around the "important town" mentioned by Izvestia were said to have France only a few days ago.

These reinforcements were transported by rail as far as Smolensk and then were flown to the front in a desperate German attempt to stem the Russian tide.

Izvestia said the reinforced German air force in this area has been "driven from the skies" by Soviet fighters and anti-aircraft batteries.

New successes for the Russians on the northern front also were claimed by the Communist newspaper Pravda, which said Finnish pressure against the Russian railway town of Maselskaya, north of Lake Onega on the Karelian front, had been relieved by Soviet capture of Vetikaya and Guban.

Ski Troops In Action

(According to reports received in London, Russian dive-bombers were subjecting fortified positions around Vyazma to savage assaults. But Nazi rearguards in this area were offering stiff resistance to advancing Red army troops.

(Russian ski troops, rushing into action behind motorized sleds, were engaged in bitter skirmishes with German forces, Stockholm advices said. The London Daily Mirror, however, quoted the Ankara radio as claiming the Germans were abandoning Vyazma. The Daily Telegraph reported from Moscow that there was "every reason to believe the Russians already are in Vyazma.")

STATE FARM SHOW WILL END TODAY

Club lambs was exhibited by James Landis, Rohrerstown, Lancaster county. They were Southdowns weighing approximately 320 pounds. Reserve champion honors went to Earl Tait, Mercer county, who exhibited Shropshires weighing about 315 pounds.

The auction, scheduled for 1 p. m., will dispose of 58 Hereford and 40 Aberdeen-Angus baby beeves and 56 pens of lambs.

Last night's activities were highlighted by the weight-pulling contest won by a pair of heavy draft horses that tugged the equivalent of 3500 pounds a distance of 26 feet, three inches. The champions were owned by John Horr, Claysville, Washington county.

AUSTRALIA'S OUTPOSTS ATTACKED

(Continued From Page One)

tions against New Guinea and the Solomon islands, the Australian commonwealth launched a sudden, all-out defense campaign.

The Australian war cabinet held a special meeting to discuss emergency measures and after it adjourned Army Minister Forde announced:

"The government is seriously concerned. The position in New Guinea and Malaya was review and the whole situation was discussed, including measures for strengthening our land, sea and air position."

The cabinet will hold continuous meetings. It was understood that cables stressing the views of the Australian government were sent to British Prime Minister Winston Churchill and to President Roosevelt.

The great cities of the commonwealth, hurriedly constructing sandbag defenses against air raids, took on the appearance of armed camps.

Authorities leaped into action as the war cabinet held a special meeting and conviction grew that Japanese forces have occupied Rabaul on New Britain island, 800 miles from the Australian mainland.

Australian beach defenses were manned to capacity. Units of the militia were issued battle kits and ordered to defense positions.

A strict blackout was enforced along the entire east coast. All strong points and observation posts were manned, while state governments rushed air raid precaution arrangements.

On Full Battle Footing

MELBOURNE, Jan. 23.—With an attempted Japanese invasion of the Australian mainland in the making, the Commonwealth of Australia went on a full battle footing today.

As enemy troops landed on New Britain and in the Solomon Islands, the chief defensive outposts, the government frankly warned the population to expect fighting on their own north coast, ordered a million gas masks from Great Britain as a defensive measure and took all necessary measures to meet the aggressor on his arrival.

"Australia is facing the most serious threat in his history," Army Minister Francis M. Forde said.

"But there must be no panic or defeatism—only determination to fight and throw back the enemy.

"We might have temporary reverses, but with our allies we will clear the seas of the Japanese menace and win victory in this total war, not only on the sea but in the workshops.

"Tojo (Jap Premier Hideki Tojo) has said he would show no mercy if we continued to resist. We will resist, and we will fight back to the uttermost of our capacity.

"If Japanese landings have been effected at Rabaul, two events of tremendous gravity will have occurred.

"Territory under Australian control will have been assailed, and for the first time our militia will have been in action.

"We are a tough people. We will not be influenced by Japanese threats or by the success so far gained."

Australia's national holiday on January 26, commemorating foundation of the commonwealth, was cancelled because of the situation.

Better not sneer at "backward South America." Peru had three generations of university graduates before we had a college.

'CHROME-LESS' AUTOS

(International News Service)

TOLEDO—Engineers at Willys-Overland Motors, Inc., have developed a new line of "chrome-less" automobiles in compliance with the OPM order prohibiting use of bright metal trim, Joseph W. Fraser, president of the company, announced. Instead of shiny metal finish dark shades are contrasted against light body tones, and light colored trim against dark surfaces, Fraser said.

HITLER AS A WAR STRATEGIST

ABOUT a month ago Adolf Hitler took over the supreme command of the Nazi armed forces, purportedly after an inner council row over the Russian setbacks.

But the Fuehrer's assumption of outright military leadership, co-incident with mysterious misfortunes to some of his Generals, has not turned the trick against the Red armies. On the contrary, the capture of Mozhaisk by the Russians this week is one of the hardest blows the Germans have suffered.

But not all of Hitler's difficulties are on the line west of Moscow and along the Napoleonic road of retreat toward Smolensk. To the south the Russians are reported breaking through the German lines on the upper Donets River, in the rich industrial region of the Ukraine.

The Nazis may still be able to reorganize and reinforce their battered legions for a renewal of the offensive against Russia in the spring. But it does not look like it at this moment. In losing Mozhaisk Hitler has lost the forward anchor of his winter defense front.

By his fumbling war strategy and his blundering campaign in Russia Hitler himself has pretty well disposed of the myth of his invincibility.

WAR IS NOT WORLD'S END

In a fast triple play, allow us to pass on to you a series of most interesting quotations assembled by President Marsh of Boston university, reproduced by James Truslow Adams on "Barron's," and now here set down once again. They're worth it.

Wilberforce, 1801—"I dare not marry—the future is so unsettled."

Pitt, 1806—"There is scarcely anything around us but ruin and despair."

Lord Shaftesburg, 1848—"Nothing can save the British Empire from shipwreck."

Disraeli, 1849—"In industry, commerce, and agriculture there is no hope."

Wellington, 1852—"I thank God I shall be spared from seeing the consummation of the ruin that is gathering about us."

Yet the world did not end because over a period of half a century these gentlemen saw only ruin and hopelessness. It is not going to end now, in spite of nearly universal war, in spite of death, debt and destruction.

Man is a durable institution. His powers of survival have been sorely tested before, and he has always emerged from the most gruesome ordeals, loving and living as before. So he will do again.

In a time when everything seems changing, are there no things which do not change? Of course there are. The love of men and women, the steady, consoling warmth of friendship, the driving power of ambition. The desire for the beautiful, the deed of kindness, the unselfish urge, the desire for knowledge. The asporation to see and to serve God.

He would be a foolish optimist indeed who can look complacently on the world today that should have been so beautiful, and which men have made so ugly. But he would be not only cowardly but shortsighted who would look upon it and say, "We can never do any better."

The world to come will be what we make it, and what we give our children an opportunity to make it. Our immediate task today happens to be the attainment of victory in a war which has come to us despite long and intense efforts to avoid it.

That is only the chapter in which we are now reading. The coming chapter need not be like the blotted and smudged pages of the past. It can be clean and fine. In the midst of today's troubles we must remember that, for it is only if we forget it that we prejudice its eventual realization.

THE REVISED PRODUCTION SET-UP

Shake-up of the defense production administration by Donald M. Nelson is reassuring evidence that the new head of the nation's mammoth armament effort is not going to stand on ceremony when victory depends upon the speed with which American industry can be geared for all-out war, says the Philadelphia Inquirer.

Abolition of the Office of Production Management by Mr. Nelson is in line with streamlined efficiency. OPM, throughout its not too satisfactory career, had been gravely hampered by the two-headed leadership of William S. Knudsen as director general and Sidney Hillman as associate director. In such a set-up Mr. Knudsen's industrial skill and knowledge were at a disadvantage.

But in revising the defense output organization under the new War Production Board, Mr. Nelson has followed a wise course in making no changes so drastic as to interfere with production. He has tightened up the administrative machinery by the establishment of six major divisions—Labor, Purchases, Production, Materials, Civilian Supply and Industrial Operations—but he has commendably guarded, where possible, against shifts of personnel that would require the breaking in of new directors and the loss of precious time.

Thus Mr. Hillman, though stripped of his title as OPM associate director, will head the WPB labor division. It has already been announced that Mr. Knudsen would act as Director of Production of the War Department, an important new post. But Mr. Nelson has the right idea in wanting to keep in close touch, because of their expert knowledge, with both Knudsen and Hillman.

Conversion of the giant automotive industry to full war use, faster contract-making and aid for small business through contract subletting and wider use of available machines are projects meriting the most earnest efforts of the new setup. It is heartening to hear from Mr. Nelson that the War Production Board will be "no debating society," but will be organized right at the start for hard, fast work.

That's precisely what the whole country wants: A smoothly working organization capable of seeing to it that sufficient planes, ships, guns and tanks are turned out to defeat the Japs and the whole Hitler Axis in the shortest time possible.

When Churchill dubbed Mussolini an organ grinder, all comment on the Duce's role in the war ceased. There was nothing left to be said.

The Parent Problem

By Garry C. Myers, Ph. D.

DEFENSE DUTIES OF PARENTS.

Now that our nation has been attacked, we can be sure that no letters will go to fathers, sons and other relatives in the services suggesting that they should not be there. America is as one man and we parents are all patriots. We want our nation saved and we are proud to have our loved ones share in its saving. Many mothers and most disabled and over-aged fathers wish they could march beside their sons and help defend our country.

Those of us who are not eligible for the armed forces will do our bit for defense in every other way we can. One of the ways in which every parent and grandparent every wife, other relative or sweetheart can help is to boost the morale of our soldiers and sailors.

Courageous Attitude

We can do much of this through our healthy and courageous attitude toward them as they leave for the front. We can do it even months and years before they are eligible to go. We can do it through our letters to them. When we and our children write the man in the service it will be with an air of straightforward courage.

We won't tell him of our fears and anxieties about him. We won't tell him what a hole his going left in our hearts nor how we miss him. We won't be so selfish. There will be no weeping in our words, no tears between our lines. We will write of the everyday experiences we have had as we would if he had gone off for a visit of a few weeks. We will write interesting, newsy letters. We will also send him news clippings, or have the local daily or weekly paper sent regularly to him.

Cheerful Letters

We will not write him of our aches and pains, our worries, sorrows and disappointments. Rather we will write about all the cheerful and funny things we can think of. If such won't come from our heads we will borrow from the heads of others. As we read, let us make note or clip some of the funny things to enclose with the letter.

Let us in the letter recall some of the funny things we and the son, husband, relative or other loved one experienced together and, never once infer that we are not sure we will have equally pleasant times again.

Without seeming to lecture him, let us urge him to go to religious services regularly.

What Noted People Say

(International News Service)

WASHINGTON—Donald M. Nelson, war production chief at his first press conference: "I am no superman. I don't believe in super-men, but if I can do this job, and I think I can, it will be done."

NEW YORK—Fannie Hurst, author, urges women's participation in national defense: "We women are no longer the waiting penelopes of war."

WASHINGTON— Representative Hamilton Fish, former Isolationist urges passage of a navy appropriation: "This measure will make our navy so powerful that in the future we can lick the stuffing out of the Germans and the Japs and whatever remains of the Italian navy."

HAPPIGRAMS

by ERICH BRANDEIS

Seventy-five volunteer Red Cross workers underwent a tear gas test at Mitchell Field, Long Island, as part of their instruction in the use of gas masks.

The eyes of the dark-complexioned girls merely became glazed and shed a tear or two, while those of the blondes watered profusely.

According to the Army authorities, who made the test, people with dark eyes have a pigment that enables them to withstand the chemical agents used in gas warfare better than those with light orbs.

Could that be the reason why so many gentlemen prefer blondes?

Perhaps it's not a weakness—just lack of pigment!

Bible Thought For Today

It is silly of men to set themselves against God. Yet we do just that when we disobey his moral laws, which are unchangeable as his physical laws: It is he that sitteth upon the circle of the earth, and the inhabitants thereof are as grasshoppers.—Isaiah 40:22.

Washington is a madhouse—35,000 stenographers making five-carbon records, and not a positive "yes" or "no" in all of them.

HINTS AND DINTS

Sun sets tonight 5:07. Sun rises tomorrow 7:16.

People hear many things in the evening and the next morning they find out it is just talk.

The high cost of smart living doesn't keep as many of us broke as does the high cost of fool spending.

And then there are gals who like to be invited to homes just to see what is in them.

They say that a pretty young East Side wife treats her husband like a god. She places a burnt offering before him at every meal.

A writer says song writing is a disease. We have often wondered what made some people write songs.

TEN LITTLE MOTORISTS.

A safety jingle going around:

Ten Little Motorists, driving in line, one tried to pass the rest, then there were nine. Nine Little Motorists, sadly I relate, one jumped a traffic light, then there were eight. Eight Little Motorists, young and not so deft, one tried to show his skill and seven were left. Seven Little Motorists, touring in the sticks, one failed to dim his lights, and then there were six. Six Little Motorists, very much alive, one did not see a train, then there were five.

Five Little Motorists, speeding to the shore, one skidded in the rain, then there were four. Four Little Motorists, coming from a tea, one faced about to chat, then there were three. Three Little Motorists, this is sad but true, one slumbered from fatigue, then there were two. Two Little Motorists, racing just for fun, one passed upon a crest, then there was but one. One Little Motorist, though it's seldom done, lit a match to gauge his tank, now there are none!

Hearts, like doors, will open with ease
To very, very little keys;
And don't forget that two of these
Are: "Thank you, sir" and "If you please."

Laws don't stop some people, even a gun often fails.

Flossie says most girls like indoor sports, but lots of gals wish they would go home earlier.

We read the other day about an autoist killing a deer with his car. Probably mistaken for a pedestrian.

The chief objection to the dial system is that you have nobody to blame and bawl out when you call the wrong number.

Shortening of college terms means less sports. That will take the main study away from some.

GIRLS WHO PREER OLDER BOYS.

Today's voluminous mail yields this query reflecting one of the chief worries of the typical modern lass of that age: "Is it all right for a girl of 17 to go with boys 21 and 22? I like them much better. Younger boys act silly."

Here is a perfectly normal appraisal of boys. This girl of 17, the remainder of whose letter proves that she is normal, is just as mature as the boys she prefers, if they are normal. A great many young girls are more mature than boys of their own age and when they find older boys more interesting, there is no reason why they should not accept their attention. Perosnally, I have observed that age makes very little difference in matters of the heart. I know two women who are very happily married—one to a man twenty-five years her senior and the other to a man ten years her junior. It depends very much upon the temperament of the woman. If she is a quiet, serious girl she might be happy with a man older than she. A frivolous butterfly who must have constant excitement will naturally tend toward youthful companionship.

Question: What is the proper use of the table knife? From watching my fellow-diners in restaurants I have become a little confused. Perhaps I am wrong and it really is used for manifold purposes. Tell me.—Ted.

Answer: No doubt the knife is used for manifold purposes but correctly it is used for cutting meat managed without it. There is a salad knife for cutting head lettuce and a butter knife for spreading butter on bread and biscuits. There are no other proper table uses for this instrument.

Question: There is always a doubt in my mind about the etiquette of smoking. Should I offer a cigarette to a woman whose reaction to this practice I do not know, or might she, if she condemns the practice think me presumptuous or forward? —Phil

Answer: Even though she condemns the practice of smoking, she should not consider your offer of a cigarette forward or a breach of etiquette. If she does not smoke or even if she disapproves, she should merely politely decline, showing no attitude of reproach.

Tomorrow—Keeping Worries From Children.

Then there is the school kid who explained his tardiness by saying his mother forced him to overwash himself.

HAD NO TEMPTATION.

We had a chat the other day with a man who has the reputation of knowing his way around and of being about the smartest man in the community.

We asked him how he achieved this sort of reputation.

"I've kept it quiet a long time," he said, "but to tell you the truth I think I got it mainly because I never had money enough to make a fool out of myself."

We understand that a scamp got into some trouble with the government for false advertising, but the federal people are not quite sure how to go about prosecuting him.

Seems the chap guaranteed that he could reduce the girth of fat women if they followed the diet he prescribed. Those who sent in their money got a sheet of paper advising them to eat the holes in doughnuts if they wanted to get thin. The government, it seems, feels the man cheated the customers all right, but they have to admit that the diet he prescribed would thin down the women.

AIN'T IT TRUE!

A wealthy old woman who was very ill sent for her lawyer to make her will.

"I wish to explain about the disposition of my property," she said weakly.

The lawyer was sympathetic. "There, there!" he said. "Don't you worry about it; just leave it to me."

With resignation, the old woman said: "I suppose I might as well—you'll get it anyway."

When you give to the Red Cross fund you are helping all the people engaged in the war, the soldiers in the ranks and their dependents at home. Know any better way to help?

Somebody has gone against nature by developing a seedless watermelon. The seeds were put there to keep consumers from eating too fast.

It may be a land of equality for men, but the wife of the boss doesn't invite the wives of the hired help.

An East Side woman brought home her winnings from a bridge party—an attractive lamp shade. When she placed it on the table where her husband was sitting, he snapped: "If you wear that contraption in public you'll have to go without me."

A lot of people still do not know how to salute the Stars and Stripes correctly. In some places they are giving that information in the public schools.

A certain wet orator was riding one morning by the side of a minister in a street car, when they got to talking. "It may interest you to know," said the orator, "that I don't believe in the existence of heaven." The curate nodded and went on reading his paper. "You don't quite realize what I'm trying to make clear," persisted the gentleman. "I don't believe for one minute there is a heaven." "All right, all right," replied the bored curate, "go to hell then, only don't make so much fuss about it."

Look For Joker In Propaganda These Days
Capital Seeks To Identify David Darrin
Would Impeach President And His Cabinet

By CHARLES P. STEWART
Central Press Columnist

WASHINGTON, Jan. 23.—Just who David Darrin is nobody seems to know. A lot of mimeographed literature, with that name at the bottom of it, is in circulation in Washington, however, but David's address isn't given.

The stuff's an appeal for "concerted action" to impeach President Roosevelt, Vice President Wallace and all members of the present national cabinet, for "gross negligence", according to the author, "in failing to prepare, in advance, for today's emergency."

The dope must have cost considerable money to turn out and deliver, by mail, to all newspapermen in the capital and to a large and varied assortment of others who report the receipt of copies. Accompanying each of them is a handsomely engraved card, professing to account for David Darrin. He's described as a "general consultant", with a post office box and a telephone, but no further address. Letters to his p. o. box go unanswered, though, and so do calls on the 'phone number he gives. The name isn't in the city directory or the 'phone book, either.

Pretty mysterious, what?

David, if there is any such person, must be or has been very recently in Washington, for his mimeographed copy and his engraved cards were distributed locally postmarked.

Effort and Dollars

Perhaps there isn't, in reality, a David Darrin. Yet, supposing that there isn't, somebody, nevertheless, was at all the trouble to broadcast that spiel, and sufficiently interested to foot the bill.

Had the so-called appeal urged impeachments on the ground that the administration was blameworthy for our final participation in the war, it would be a fair assumption that it's pro-Axis propaganda, but that's not the argument. The contention is that we're in the conflict unprepared, due to "nine years of neglect of duty", as a result of which, it's bitterly declared, we're in no shape to meet the situation in "this period of world chaos."

David, if he exists, as such, does indeed, complain of F. D.'s "unrestrained grasping of unprecedented powers," but the powers he says he's speaking of aren't war powers—the grasping, he alleges, was done during the depression, and now, howls David, they prove to have been "utterly wasted" for present purposes.

Of course the thing may be pro-Axis propaganda, at that.

If the Axis bunch could get us into an internal wrangle among ourselves, they doubtless would profit by it, no matter how they started it, and they naturally would like to convince us that we're unprepared as bad for our morale.

Nevertheless, if such is the

BIRTHDAYS of FAMOUS AMERICANS

(Compiled by Encyclopaedia Britannica)

JANUARY 23

1737—John Hancock, American Revolutionary statesman, at Quiney, Mass. He was president of the Continental Congress, and to him fell the honor of being the first to sign the Declaration of Independence. Previously to the meeting of the Continental Congress, Hancock had been president of the first and second provincial Congresses. Later he was a member of the Massachusetts Constitutional Convention and Governor for 11 years.

1761—Richard Alsop, satirist, poet, and one of the "Hartford Wits," at Middletown, Conn. He translated from French, Spanish, and from Scandinavian, the last-named study influencing his epic, "The Conquest of Scandinavia."

1852—David Skaats Foster, author, at Utica, N. Y. "The Romance of the Unexpected" is his most popular book of poems. The first of his novels, "Casanova the Courier," a story of Americans in Europe, established the model for most of what he was to write later.

Daily Dozen

(From the Medical Society of the State of Pennsylvania)

Fear is part of the defensive mechanism of the human being.

It dominated the primitive man, warning him of imminent danger.

Fear is one of the factors that brings a patient to the doctor.

The unknown is a very potent phase in exciting fear.

Most patients approach the doctor with a degree of fear.

A definite diagnosis, even one not favorable, relieves him.

The doctor allays the patient's fear as soon as possible.

His human sympathy assuages our fears, even our pains.

He gives his fear-ridden patient confidence and hope.

A doctor brings understanding, hope and cheer to the sick bed.

Fear flies out of the window.

The World and the Mud Puddles

ABOUT DAMAGES

This littel story might interest some lawyers who may read this. It also might interest proprietors of moving picture houses. A woman who sued the proprietor of a moving picture theater testified in court:

"I was walking along, following the people going into the theater, and stumbled over an object in my path."

It was the first night of the showing of "Gunga Din." A large wooden sign in the form of a "G" was standing in the lobby. There was a rubber mat over which the patrons walked from the ticket booth to the doorway. The woman claimed that this sign was placed so close to the matting that part of the wood extnded over the mat and tripped her. She suffered a miscarriage, and she sued the theater for damages. Said the Supreme Court of Washington State in awarding her a recovery:

"It is a universally accepted rule that the proprietor of a place of public amusement such as a theater is required to exercise ordinary, or reasonable care to put and maintain the premises, appliances, equipment and devices which he devotes to such a place of amusement in a reasonably safe condition for his patrons, and if he fails to exercise such care, he may be held liable to the patron injured thereby."

In this case the management claimed that the patron herself was guilty of contributory negligence in not looking where she was going, and failing to see the sign, but the court ruled that she had a right to suppose that the rubber matting was a safe place to walk upon.

Lawyers who wish to refer to this case may find the case in Volume 117, of the Pacific Reporter, Second Series, Page 51, the case being known as "Griffin vs. Cascade Theatres."

Just Folks

THOUGHTS ABOUT NEED

I hold no brief for poverty.
'Tis good to be from worry free
And being rid of want and need
I'm sure is very nice indeed,
But riches seldom spur a chap
To work to build a better trap
And riches seldom prod the mind
Till something useful is designed.

Sometimes I think 'twould better be
Were young men held to poverty,
And riches, silver, lands and gold
Permitted only to the old.
The old should always be at ease,
Should spend their twilight as they please
But youth should never come to rest
Till it has stood to every test.

For young men it is better far
When born to want and need they are.
They'll work; they'll sit up half the night
Machines to make or books to write
For there is nothing like desire
To keep boys going though they tire.
And here's a truth we can't escape
'Tis want that keeps a lad in shape.

I do not say that youth should be
Condemned always to poverty.
But think that granted sense and health,
All boys should work their way to wealth;
Should think and dream and work and plan
And serve their fellows while they can
And rich at least sit down at ease
To do exactly as they please.

We are torn between Brazil's invitation to tap its 20,000,000 rubber trees and an urge to let well enough alone.

We had begun to lean too heavily on automobiles and they on us.

A sailor off the Norness who came through the torpedoing safely, walked six blocks in Brooklyn and was bagged by a passenger car.

We have had more casualties from sedans than submarines and as the jalopies leave the road we will have opportunity to knit our bones. This is more important than knitting sox.

After the war we can have new cars, new tires and new fractures. What more could we ask?

Compensating for the loss of automobiles we will have an extra hour of daylight in which to walk home from work starting February 9.

Under the new system we are permitted to hoard 60 minutes of sun tan per day and we have instructed the hens to deliver for an early breakfast.

HADASSAH EMERGENCY LINEN SHOWER TUESDAY

New Castle chapter of Hadassah has planned its annual linen shower for the benefit of the Hadassah Medical organization and its related activities. The ingathering will take place at the Cosmo club rooms on next Tuesday evening, January 27, with Mrs. Jacob Silverman, Mrs. E. Meister and Mrs. D. French in charge, and an enthusiastic response is already evident.

Not only do these institutions receive hospital linens, but over 60 other institutions in Palestine benefit from this annual ingathering.

The war has created emergency needs of clothing and medical supplies, not only amongst the destitute refugees, but the British, Australian and Free French soldiers, who are in Palestine at the present time. These supplies, including clothing for men, women and children, are transported free of charge by the British War Relief, Inc.

A report of the recent regional conference held in Pittsburgh will be given on this date by Mrs. R. Rubenson, the accredited delegate.

The main feature of the emergency program will be a book review by Mrs. Benjamin I. Stein, vice-president of the Pittsburgh chapter of Hadassah. Mrs. Stein is a graduate of the University of Pittsburgh, and is well known for her excellent book reviews.

A large attendance is expected to participate at the ingathering on February 4.

C. R. C. Club

Mrs. Howard Kennedy of Mt. Jackson, extended hospitality to members of the C. R. C. club, in her home Thursday evening, the time being whiled away with tables of 500. Mrs. Judd Lamson and Mrs. William Casto won the prizes.

In serving a delicious repast, Mrs. Robert Book and Mrs. Glenn Tindall, aided the hostess.

Plans were made for a similar party to be held on February 5, with Mrs. Judd Lamson of Mt. Jackson.

N. A. L. C. AUXILIARY INSTALLS OFFICERS

New officers were installed at the meeting of the N. A. L. C. Auxiliary held Thursday evening in the home of Mrs. Bess Miller, Ridge avenue. Mrs. Kenneth Lutz, the retiring president, was in charge of the meeting with Mrs. Robert Maxwell, a past president, as installing officer.

Those installed were: president, Mrs. George Parker; vice president, Mrs. Thomas Davis; secretary, Mrs. John Gaston; treasurer, Mrs. Mont Forney; trustee, Mrs. Roy Grafton.

Games were enjoyed during the social period with Mrs. Thomas Davis winning the prize. Refreshments were served at the close by Mrs. Miller.

Next meeting will be February 26 in the home of Mrs. Harry Barnes, 317 Wallace avenue.

HI-LO-BRIDGE CLUB AT GIBSON RESIDENCE

Hi-Lo-Bridge club members, were received in the home of Miss Frances Gibson on Neshannock boulevard, Thursday evening, with Mrs. Oscar Gibson, Mrs. Hollis Barber and Miss Louise Kennedy, as special guests.

Contract bridge was enjoyed, the trophies for honors going to Miss Gibson, Miss Kennedy and Mrs. Barber.

After partaking of a tasty repast served by the hostess with Mrs. Curt Hutchison, sister, aiding, plans were made for a dinner party in two weeks.

Men's Brotherhood

Rev. Paul Kelsey, a missionary home on furlough from Egypt, told of mission work under present conditions in Egypt at the meeting of the Men's Brotherhood held Thursday evening in the Highland U. P. church.

Mr. Kelsey also related many interesting personal experiences and told of the trip home which covered 18,000 miles instead of the usual 6,000, in order to avoid war zones.

Refreshments were served by officers of the group, Glenn McCracken, president, Henry Stone and Howard Boalick.

The election of officers was postponed until the March meeting.

B. S. Club Meets

B. S. club members gathered in the home of Angeline Noviello on South Mill street Wednesday evening, and card playing was the main pastime.

Adeline Tempesta captured the club token and a special guest attending was Mrs. Charles Casalandra. Plans were made for a ravioli dinner on February 5 at the home of Mrs. Edith DeCaprio on South Mill street.

A tasty lunch was served later in the evening, and assisting the hostess was Genevieve DeCaprio.

The next meeting will be on February 4 with Teresa Cassella of South Mill street.

Officers Installed

Installation of officers took place at a recent meeting of the Junior Young Judeans, held at the Tifereth Israel synagogue. Candelight service was used and Esther Elefant, leader, conducted the installing.

Jerome Silverman was appointed chairman of the membership drive during the month of February.

The next meeting will be on January 25 at Temple Israel synagogue at 2:30 o'clock.

Chapter 440 Choir

Choir members of Cathedral Chapter, No. 440, Order of the Eastern Star, will meet Monday evening at 7:30 o'clock, in the home of Mrs. Charles Gee of Rose avenue, with Mrs. Floyd Smock, co-hostess.

Y. M. M. CLUB ELECTS OFFICERS THURSDAY

Thursday evening members of the Y. M. M. club assembled in a suburban tea room, on the Ellwood-New Castle road, with Mrs. Paul Allison hostess. A social time and election of officers featured.

For the new year, the following were elected: President, Mrs. Howard Houston; vice president, Mrs. Henry Stoner; treasurer, Mrs. Willis Boyd; press reporter, Mrs. Aaron Yoho.

During the card period, prizes fell to Mrs. Stoner, Mrs. Oliver Hoch and Mrs. Harry Haggerty. Gallopers were won by Mrs. Stoner and Mrs. Boyd.

Mrs. Allison was remembered with a gift from her "secret sister," the occasion commemorating her birthday anniversary.

On February 5, Mrs. Boyd of 604 County Line street, will entertain.

B. P. W. BOARD WILL MEET MONDAY AT Y. W.

An important meeting for members of the Board of the Business and Professional Woman's club, will be held on Monday evening, January 26, in the Y. W. C. A. assembly rooms, at 7:45 o'clock.

Knitting Unit Meets

St. Andrew's Red Cross knitting unit met in St. Andrew's rectory, 1910 Hamilton street, Thursday evening. Mrs. Robert M. Garland and Mrs. J. L. Davies, from the Red Cross, were present to instruct the knitters.

Regular meeting of the Women's Guild, which sponsors the knitting unit, will be held next Thursday in the home of Mrs. J. C. Hetrick, 772 Arlington avenue.

CURRENT CLASS MEETS AT METZLERS' MONDAY

Current Events class members will be received Monday afternoon, January 26, in the home of Mrs. Charles T. Metzler, 404 Park avenue, for their regular session.

At 2 o'clock the party committee convenes at the same place.

S. S. H. Club Meets

Mrs. Mary Sands was a charming hostess on Wednesday evening, when members of the S. S. D. club gathered in her new home, rear Division street.

Card playing was the diversion, high score trophies going to Mrs. Michael Scungio, Mrs. Frank Scungio, Mrs. Frank Davelli, and the club token to Mrs Frank Merando.

The birthday of Mrs. Charles Merando was honored, and she received a lovely gift. Lunch was served at a later hour, and aiding the hostess were her daughters, Rose Marie and Phyllis. The special guest was Mrs. Frank Davelli, and she received a gift.

On February 4, Mrs. Michael Scungio, of Waldo street, will be hostess.

Buone Amici Club

Mrs Rose Passerette of 814 South Mercer street entertained the Buone Amici club Wednesday evening in her home.

Dancing and games were pastimes. The club token was won by Mrs. Christian Marshall. Special guests were Mrs. Eleanor Bassano and Carrie Sands.

Plans were made for a ravioli dinner at the home of Mrs. Rose Passerette, South Mercer street, on January 28. The hostess served a delicious lunch later in the evening, with the aide of Carrie Sands.

On February 4 Mrs. Frances Sands of 814 South Mercer street will entertain.

What's What At A Glance

(Continued From Page Four)

scheme, David's is quite an indirect method of approach.

And his presentation of his theme sounds not so much like that of a pro-Axis agent as like that of an old-fashioned American reactionary, who hated New Dealerism from the first and thinks he sees an opportunity today to screech, "Now look where it's landed us!"

A good many inexplicabilities are developing themselves in these peculiar times.

Look for Jokers

Illustratively, this story's told in Washington:

Our mission to Moscow had just finished its work, following Russia's introduction into the war, as an ally of the democracies.

Said a Soviet member of the entertainment committee to one of our delegates, "Perhaps you'd like to see something of our city before you leave."

"Yes," answered the American, "I sure would."

"Well," said the Muscovite, "this is Roosevelt avenue, formerly Hitler street. There's Cordell Hull boulevard, formerly Goering drive. At the far end of it Henry A. Wallace circle, formerly Goebbels park."

"Very interesting," commented the American, "but I must be going. Farewell comrade, formerly human skunk."

I don't know whether that's pro-Axis propaganda or not.

Slick propaganda needs to be so expressed as not to be readily so recognizable. Possibly Nazi sympathizers invented the Moscow yarn by way of sowing the seeds of dissention between Russia and the United States. Any yarn's liable to have a joker concealed in it in these abnormal days.

Nelson Prepares For Greatest War Machine Of U. S.

By DAMON RUNYON, JR.
International News Service Staff Correspondent

WASHINGTON, Jan. 23.—"Our plush days are over."

Thus the government today bluntly told the American people in five words the price they must pay to construct history's greatest arsenal, under direction of War Production Chief Donald M. Nelson, to defeat the Axis powers.

The war program, given Nelson by the office of facts and figures, forecast an ultimate army of 7,000,000 men, the employment of 20,000,000 workers in war industries, and an all-out effort requiring 50,000,000 man-years of labor.

The government literally told Nelson and the American people that the job "can and will be done."

"We are not longer the care-free land of plenty," the O. F. F. reported. "Every counter heaped with chromium-coated gadgets, every store bursting with limitless supplies of shoes and sealing wax.

"Total war requires so many materials that there is just not enough to go around."

Greatest War Machine

As Nelson buckled to the task of using American industry to create the greatest war machine in all history, the O. F. F. declared that "the production of much needed ammunition requires copper that formerly went into ash trays, weather-stripped windows or toy trains."

"We need the ammunition," the report added. "We can do without the toy trains."

The O. F. F.'s report coined a phrase —"first things first"—to describe the major task facing the new war production board—to see that all essential materials and tools are thrown into the defense effort before any thought is given to the least luxury at home.

"War," the government declared, "means a tightening of the consumer's belt."

As the report was issued, Nelson's new "streamlined" governmental organization was hard at work aligning the nation's industrial forces for the all-out production drive against the Axis, and "tightening the consumer's belt" at home to provide for the American men fighting aggression, from the shores of icy Iceland to sun-baked garrisons in the Far East.

William H. Harrison, director of the War Board's production division, called upon American industry to throw its mighty shoulder—every facility—behind efforts to produce the planes, guns and tanks for America's fighting forces under President Roosevelt's projected vast defense program.

The O. F. F. report, issued under the direction of Archibald Mac Leich, librarian of Congress, contained the following highlights:

With $50,000,000 from lend-lease, the army air corps ferrying command already has delivered more than 1,000 planes.

With the new draft law the United States will be able to recruit an army estimated at 7,000,000 men.

Plane production of the United States and Britain will soon exceed the Axis output.

Total war will require Americans to do without many things—but not food.

Nearly $1,000,000,000 worth of new munitions plants are now in full operation.

Ships are being launched by the Maritime Commission at the rate of one a day and launching will reach two a day in six months.

Five million workers already are employed in war production, and the figure will total 20,000,000 in 1943. More than 500,000 women are now employed in war work, and before the end of the war one-third of the aircraft workers will be women. A woman's "land army" may be recruited to cope with the shortage of farm labor.

Thirty-three governments, in addition to Britain, are eligible for lend-lease, and $1,200,000,000 of the total lend-lease appropriation of $13,000,000,000 has been spent. Exports total around $600,000,000, with the balance spent for services, such as repair of ships.

Family of Naval Hero

Seated beneath the emblem of the new hero's first command, a PT boat in the Navy's Mosquito Fleet, are the wife, child and mother of Lieut. John D. Bulkeley of New York City, who raced his motor torpedo boat into Subic Bay, Philippines, and blasted a 5,000-ton Japanese ship with a torpedo. Lieut. Bulkeley and his men made their escape through a hail of machine gun and shell fire. *(Central Press)*

WITH MEN IN U. S. SERVICE

James M. Marshall, Jr., of North Walnut street, is in New York where he is in training with the U. S. navy, as a mid-shipman. He will receive his training on the U.S.S. Prairie State Ship.

He is a graduate of New Castle high school, Westminster College and the University of Pennsylvania, having received his masters degree. Since graduation, he has been employed in the sales department of the National Broadbasting Company, in New York City.

Private David Matthews, son of Mr. and Mrs. C. G. Matthews of 701 Oak street, has been transferred from Edgewood Arsenal, Maryland, to San Francisco, Calif. Private Matthews has been in service for two years.

Pvt. James Pezzone of Camp Ulupon, Hawaii, has written home to his parents, Mr. and Mrs. Carmen Pezzone, Home street, that he is well and safe and would like to hear from his friends.

Pvt. John Roman of Ft. Bliss, Tex., is spending a six-day furlough with his parents, Mr. and Mrs. Charles Roman of 226 South Jefferson street.

Pvt. Michael Chirozzi of 714 West North street, has been transferred from Edgewood Arsenal, Md., to Ft. Bragg, N. C.

Richard Broschart, son of Mr. and Mrs. L. W. Broschart of 455 Neshannock avenue, will leave January 29 for service with the U. S. Army.

TROOP 9

Troop 9 held their meeting on Wednesday and Miss Marie Hay, Girl Scout executive secretary, was a special guest. The girls are working on Red Cross knitting. Taps closed the meeting.

Tires And Federal Stamps Are Stolen

Two Tires And Two Federal Auto Stamps Reported As Stolen Here

Despite Mayor Charles B. Mayne's threat to impose a severe penalty on anyone who is apprehended for the theft of a tire or auto stamp thieves are committing such thefts.

Bowman & Peebles, truckers, South Beaver street, reported the theft of a tire from a trailer last night. Loy Fennel, 618 State street, also reported the theft of a tire from his property.

Robert Stewart, North Liberty street, reported the theft of a federal stamp for an auto from his car. Several days ago another stamp was reportedly stolen from another car.

Recently His Honor reported that prior to the changing of a tire a motorist would be required to place his beneath a street light, else a warning would result in a grilling by police.

So far only one motorist has telephoned that he was about to change a tire.

Two More Mid-Year Classes At High

Abolishment Of Winter Move-Up Means January Graduations Will End

Senior high school will have at least two more January commencements before the Board of Education's move abolishing mid-year promotions becomes fully effective, it was understood today.

Recently the school directors voted to abandon the mid-year advancement plan and thus, with the abolishment of the plan, end winter commencements.

Tonight 233 seniors will receive diplomas in the school's 15th mid-year commencement at the Cathedral. The first January class numbered a few more than 50 and was graduated in 1928.

PATRIOTIC SALARY CHECK

(International News Service)

MIAMI BEACH, Fla.—A novel patriotic plan which originators hope will spread across the nation, has been put into effect at radio station WKAT in Miami Beach. The personnel voted unanimously for a 5 per cent check-off of all salaries and a like amount of station earnings to go toward weekly purchases of defense savings stamps and bonds.

Edgar E. Hopkin Killed In Air Accident In South

Relatives here received word of the death of Edgar E. Hopkin, aged 21, of Guaun-Cae-Gurwen, South Wales, who was killed in an air accident in Alabama on Tuesday, Jan. 20.

Hopkin, a nephew of Lewis J. Davies, 420 Electric street, came to this country to attend the air corps advanced flying school at Dothan, Ala., where he would have graduated in about two weeks. He made many friends in this city when he visited his uncle and aunt, Mr. and Mrs. Davies, the week preceding Christmas.

Survivors are his parents, William and Rachel Hopkin; two brothers, Evan and David Hopkin, and one sister, Mrs. H. T. Jones, all in Wales.

Funeral arrangements for the youth have not been completed.

News Briefs From City Hall

Traffic lights now and then go on a "vacation" and insofar as several of them were concerned last night a "black-out" was in existence. However, they were repaired today. The lights were out at Moravia street and Long avenue, Neshannock avenue and North street and at the turn in Butler avenue, north of Paul street.

The Red Cross got a dollar today via traffic court. A motorist said he placed a nickel in the wrong meter but told Mayor Charles B. Mayne that "if you are willing I am willing to pay the dollar to the Red Cross." This suited Mayor Mayne and Sergeant G. C. Syling took the dollar which he will turn over to the Red Cross.

Frank Borio, 15, of 452 Moore avenue, and a boy named Blasak, 16, R. D. 2, are reported missing from home. They were last seen in a restaurant at Parkstown Corners.

PERFUME HARMS CLOTHES

(International News Service)

STATE COLLEGE, Pa.—Ladies—put your perfume on your skin, not on your clothes. This advice comes from Dr. Charles R. Phillips, instructor in textile chemistry at the Pennsylvania State College. Based on work in the dry-cleaning research laboratory at Penn State, Dr. Phillips found that placing perfume on clothes is not only bad form and bad grooming, but that it will also stain or damage garments on which it is used.

Inspection Stations Here Get Information From Director Of Public Safety

Local inspection stations are in receipt of instructions relative to the placing of the new Federal Auto Use Tax stamps, which state that permission is granted to place the stamps on the windshield, close to the state inspection stickers.

The letter states that "under the authority of Section 816, sub-section "A," of the Motor Vehicle Code, the acting secretary of revenue has granted permission to affix the Federal stamp on the extreme lower part of the windshield, immediately adjacent to the official inspection sticker. Stamps affixed to any other parts of the windshield are to be removed and placed in this spot before passing inspection on cars."

The letter is signed by T. E. Transeau, director of the bureau of public safety.

STATE MAN ON JOB

As an aid to taxpayers in preparing their personal property returns, G. H. Denny of the Revenue Department was in the court house Thursday morning and this morning. He will be in the court house each Thursday and Friday morning for some weeks and in Ellwood City on Saturday morning.

CASES FILED

The following cases have been filed in the office of Prothonotary and Clerk of Courts John A. Edgar.

The Peoples Pittsburgh Trust Company files a suit to recover $33,268.33 with interest from January 22, 1931 from V. V. Johnson and a long list of other defendants. The suit also seeks to recover $1046.12 with interest. The statement of claim avers that on December 24, 1927 the bank loaned the First Disciple church of Ellwood City $40,000, the loan being endorsed by V. V. Johnson and a list of other members. The statement claims the mortgage is long overdue and the suit is brought to recover.

F. W. Hutchison and Company file a suit against Alvah M. Shumaker, administrator c. t. a. in the estate of Nancy J. Copper to recover $108.59 allegedly due in a bill of merchandise.

The H. O. L. C. files an amicable ejectment against Thomas and Sanna Laitinen.

Helen B. Mohr of Ellwood City asks a divorce from James H. Mohr of Ellwood City on the grounds of cruel and barbarous treatment. They were married in Ellwood City, November 17, 1931.

Sam Zahasky trading as the Economy-Chevrolet Company files a suit against Dudley B. Warner, trading as the Warner and Smith Motor Freight for $230.45. It is alleged that on November 27, 1940 Arthur J. Harper was driving one of the plaintiff's cars on Route 18 north of New Castle when his car was struck by the truck of the defendant company driven by Roy McDowell, damaging the plaintiff's car.

Norman H. Buckingham of New Castle asks a divorce from Naomi G. Buckingham of Shenango township, on the grounds of desertion. They were married December 13, 1934 in New Castle.

REVIEWING BUDGET

The three county commissioners are reviewing the annual budget today and are making minor changes as they see it necessary. The institutional budget is being made by the commissioners this year as the law was recently changed transferring this duty from the county controller to the commissioners.

24 YEAR OLD DOG

Several days ago we thought we had the oldest dog in the county pegged through the license bureau of the county treasurer's office. The dog is 23 years of age. On Thursday an older dog was registered, that of Earl Clinefelter, of 121 East street. The dog is a female and is 24 years of age.

CHEMICAL FIGHTS WEEDS

(International News Service)

BERKELEY, Calif.—Water saturated soils reduce the ease with which carbon disulfide varpor moves through the grounds and contacts the roots of weeds it is designed to kill, declared P. M. Hagan of the University of California College of Agriculture. Carbon disulfide shows considerable promise as a control for deep-rooted perennial weeds, such as morning-glory and for treating oak-root fungus, Hagan said. When introduced below the surface of the round as a liquid, it rapidly volatilizes and spreads through the soil as a vapor.

National Income Is $92,200,000,000

Such is Estimate For 1941 Of Government Economists At National Capital

WASHINGTON, Jan. 23. — War fattened the national income to the record-breaking total of $92,200,000 in 1941, or an average of $693 per person, government economists estimated today.

This was $16,200,000,000 more than 1940 and even $8,800,000,000 more than the fabulous year of 1929.

In 1942 it is expected to be more.

The experts figured that about one-third of the increase in national income last year was dissipated in the higher cost of things. Taxes savings campaigns, credit controls, price fixing and other devices are counted on to remedy this trend toward soaring costs of living.

Wages and salaries accounted for the biggest part of the national income, $48,000,000,000, which was 9 per cent more than in 1940. Farm income, dividends, profits from unincorporated businesses and other types of income also gained.

Manufacturing industries, augmented by a large number of new defense factories and defense orders for many old ones, produced $26,600,000,000 of the national income.

In terms of jobs, the higher national income meant that non-agricultural workers increased 2,400,000 in number and reached a total of 40,600,000. Retail sales, one of the best indicators of the general populace's income, rose 17 per cent to a total of $53,500,000,000.

BANKS CATER TO POLES.

(International Service)

LONDON, Jan. 23.—So many Polish nationals in Britain, have opened accounts with the Post Office Savings Bank, that a slip printed in Polish is being inserted into their bank-books giving information about the accounts. These slips are also being stocked at Post Offices in areas where Polish Forces are stationed.

Defense Experts See New Methods

Improved Power System Defenses Are Demonstrated By Westinghouse

(International News Service)

PITTSBURGH, Jan. 23.—Improved power system defenses against lightning or short circuits caused by sabotage or bombing were demonstrated dramatically at the Westinghouse Works Thursday as engineers threw 2,000,000-kilowatt electrical test bolts for defense experts.

In a new expanded high power laboratory, army and navy officers and college engineering professors saw charges equal in destructive power to 75,000 lightning bolts shatter six-inch timbers and explode old-type safety fuses.

Then improved circuit breakers and safety fuses were used to snuff out the flaming arcs of the test charges. The protective devices quenched the 20-foot arcs in oil and blew them out with compressed air. The test charges were created by twin 500-ton generators, each driven by a 6,000-horsepower motor.

Australians Are Prepared For Any Invasion

(International News Service)

DARWIN, Jan. 23.—Australia expects an invasion attempt by the Japanese in the immediate future but is confident that such a move is doomed to defeat, it was declared here today.

A high ranking army official put it this way:

"Australians are indomitable fighters. If attacked on their own soil they fight like tigers."

Unofficial circles believe that the situation is under control.

Would Compel Labor Unions To Tell Of Funds

(International News Service)

WASHINGTON, Jan. 23. — Rep. Vinson (D) Ga., chairman of the House naval affairs committee on Thursday introduced a bill to compel labor unions and business and trade organizations to register with the secretary of commerce and make public statements of their officers, activities and financial transactions.

The bill results from the sensational report by the committee charging "unconscionable profits" by some naval contractors in war work and "amazing accumulation of wealth by labor unions."

Under terms of the bill, all labor and business and trade organizations "whose activities affect commerce" will be required to register except that civic leagues, cooperatives, clubs, and charitable organizations are excepted.

Wall Street Foresees Clear Cut Victory For Britain And U.S.

By ROGER W. BABSON

NEW YORK CITY, Jan. 23.—For the first time in several years there is a gleam of real hope in Wall street. Stock exchange seats are already selling 40% higher than the 1941 low. Stanley, Morgan & Co., probably the wealthiest bond house in America, is, for the first time, buying one or more of these seats. The Securities Exchange commission is moving to Philadelphia away from the socialistic atmosphere of Washington. Consolidations of investment firms and reductions in operating costs are once more putting these houses into black ink.

R. W. BABSON

Watch Wall Street

It is easy to criticize Wall street. It has committed many sins in the past. Let me say, however, that no business is today transacted with more scrupulous honest than now pervades the stock and bond markets. Moreover, the work of investment bankers and brokers is absolutely essential to all lines of business. You, my reader, may never have seen a stock or bond; but your employment and wages depend very largely upon whether your employer and his banker have an active and free market for the securities which they own.

Another thing should be recognized about most Wall street firms. They have a 90% correct record for "calling the turns." They have good "noses" and can smell far ahead. They sense any change in the nation's sentiment better than any other group. This does not mean they can pick the stock market winners. Perhaps their patience to study company reports is not so good as with some of us away from Wall street. They make many and big mistakes as to what to buy or sell. But their honest judgment as to when to buy or sell is pretty good. Today they believe it is a wonderful time to buy certain stocks.

What To Buy

For the first time since 1939, Wall street foresees a clear-cut British-American victory. They know that the U. S. now is 100% in the war and that Hitler has passed his peak of power. They believe that airplanes and tanks are to decide the length of the war. They, therefore, feel that, after the producing power of the United States gets into full swing, our planes and tanks, needing comparatively few combat soldiers, will crush the Axis like a steam roller.

Although Washington, where I was yesterday, talks that the war will last for years longer, Wall street now believes that the active fighting may stop by the winter of 1942-43. It does not expect a very long armistice to follow while peace terms are being discussed. Considering that Wall street was far more correct in its Japan forecast than was Washington (note how the market discounted this event), Wall street may be much nearer right on the length of the war. I repeat: Wall street has awful good "smellers."

Some Wall Street Rules

Wall street has some rules which it has learned after 100 years of experience. Here are a few:

1. Eternal vigilance and constant courage are necessary when investing money.

2. No man ever became poor by taking profits; the only sure way to get profits is to take them when you can.

3. Buy something which will "pay its board." The tremendous power of compound interest has made most fortunes.

4. When you are undecided what to do, then do nothing; never take "curb stone" advice. Consider the three "Ps"—practice, persistence and patience.

5. Remember that the market will be here tomorrow. Take time to study and think. Do not cowardly delay action nor be hurried.

6. Never be "all invested." Always keep a little free cash for the "basement bargain days" which come every so often.

Beware Of Debt

7. Keep out of debt. If your stocks worry you, sell them to the "sleeping point." Look forward, not backward. No grist can be ground by water which has passed over the wheel.

8. No men are always right, but successful men who have made and kept their money are more often right than expert advisers who cannot pay their own doctor's bills. On the other hand, free advice is usually worth what it costs.

9. Never sell stocks on account of a strike; nor buy them just because higher dividends have been declared.

10. Buy stocks that have long been inactive rather than the "blue chips" which are being talked of every day.

11. Cut losses short, using stop-loss selling orders intelligently. Buy when most people are bearish; sell when all your friends are bullish.

12. Diversify your holdings. Do not concentrate on any one industry. A "bull" often makes money; a "bear" sometimes makes money; but a "hog" never makes money.

13. Never buy stocks which do not go up in a bull market because such stocks the insiders don't own. Never sell short those stocks which don't go down in a bear market; the insiders own them also.

14. When a bear market turns bullish, buy stocks which have gone down the most or those that have gone down the least. Beware of the "middle-of-the-roaders."

15. Try to avoid putting a limit on your orders. Have a broker you can trust and tell him to buy or sell at a "fair market" price.

16. Seek to invest only in the stocks of companies controlled by men of high character. The first and last important axiom is that you save your principal only by dealing with men having principles.

Remember The Pendulum

Bernard Shaw once said to me in London: "The trouble with you Americans is that you always are boiling hot or icy cold. Success comes from being sensible." This certainly applies to our nation's attitude relative to Wall street. After the last World War, for 10 years America worshipped Wall street. Then came the crash when we turned our eyes completely away from Wall street to Main street. Now maybe the pendulum is beginning to swing back to Wall street. Think it over! Let's remember what Bernard Shaw said and "be sensible."

AMPE SUGAR AVAILABLE

(International News Service)

SAN JUAN, Puerto Rico.—Despite a 100 per cent increase in the world call prices for sugar during the last three months, the maximum of $3.50 a ton set for raw sugar by the price administration board assures a reasonable market for consumers in the continental United States. According to A. Cyril Crilley, San Juan district manager of the U. S. Chamber of Commerce, plenty of Puerto Rican sugar is available for the United States at no increase in cost, providing shipping facilities are not reduced.

Even in the privacy of home, Lincoln's speech set the pattern for America. He said: "Yes, ma'am."

Army To Establish Air Raid Warning Signal Service Here

Regional Coordinator Watson Confers With County Officials Thursday

John G. Watson, regional co-ordinator of the Pennsylvania State Council of Defense, and Frank Atwell, both of Pittsburgh, conferred with the county commissioners Thursday afternoon, relative to the location of an air raid warning signal service, authorized by the U. S. army.

This warning service consists of a telephone, in a strategic location, which is connected with the army air raid defense system, and in the event of an alarm, every county in the defense zone is warned, through this system. The local air raid wardens and industries and communities are notified in turn, as well as the public through some warning signal to be determined by the defense council.

The system is called a "black box," and is nothing more than a telephone with a set of lights, which warn of the approach of hostile planes, a yellow light for the preliminary warning, and blue and red lights for closer approach of the raiders. At the same time, a warning bell also rings, and the person manning the telephone, which is done on a 24-hour basis, spreads the alarm.

HARLANSBURG

CLASS PARTY

The Sunday school classes taught by Mrs. Clarence Boyles and Earl Stoughton held a class party one evening recently at the home of John and Harold Johnson. Games were enjoyed and a delicious luncheon was served to the members.

ENTERTAINS LADIES

Mrs. Andrew Johnson entertained a number of local ladies at her home on Wednesday. A tureen dinner was enjoyed by a number and Red Cross sewing and knitting occupied the day.

HARLANSBURG NOTES

Mr. and Mrs. James Young and Mrs. M. N. Young of Princeton Station were recent guests of Mr. and Mrs. Arthur Flack and family.

Mrs. Lynn Davis and son of Wampum spent Wednesday with her mother, Mrs. Anna Johnson.

Mr. and Mrs. Henry Croyle and children of Clairton were recent visitors of the latter's parents, Mr. and Mrs. Joseph Burnside. Mrs. Burnside is confined to her home by illness.

Raymond Altman is absent from his work due to injuries received to his hand.

BAR VISITORS AT FISH HATCHERY

(International News Service)

HARRISBURG, Jan. 23—The board of fish commissioners today announced that the fish hatchery at Erie will be closed to all visitors for the duration of the war. The move was necessary, it was explained, to protect the city's filtration plant.

Record Crowd Indicated For Address Of Dies

Congressman Opening New Line Of Investigation News Dispatches State

MARTIN DIES

At a special meeting of the Legion of Honor in The Cathedral Thursday evening it was disclosed that there is an unprecedented demand for tickets for the address of Congressman Martin Dies here next Thursday evening, and indications point to the fact that an overflow crowd will be present.

Chairman Chester C. Sweesy reported that special requests have been received for blocks of tickets by organizations which expect to attend. Among these are the Lawrence county bankers, who are having a dinner meeting here, and who will attend the lecture later.

A number of clubs and societies have also asked for blocks of tickets. Reservations will open Monday at the Fleming music store on North Mill street.

Congressman Dies and his committee this week opened a new line of investigation and will probe the activities of all nationalist organizations in the country. This investigation is a secret one.

Much of the evidence uncovered by the Dies committee enabled the FBI to seize a lot of undesirable aliens in this country at the outbreak of war, preventing a great amount of intended sabotage.

Because of his activities he has received repeated threats of death and kidnapping, he has revealed in the past, and threats still come to his attention.

DANVILLE MAN FACING CHARGES

Accused Of Wilfully Making Defective Gun Shells For U. S. Government

(International News Service)

BLOOMSBURG, Pa., Jan. 23.—Charged with wilfully making defective guns for the U. S. government, Walter C. Deitrick, a resident of Danville, today was held in $10,000 bail in the Columbia county jail at Bloomsburg.

An indictment returned against him by the federal grand jury at Lewisburg said that Deitrick, foreman of the Kennedy Van Saun Manufacturing & Engineering Corporation's shell department, "had placed certain materials in the cone-shaped centers of solid shells so as to make it appear solid metal".

Cones of 12 shells were found lacking the specified thickness, according to the indictment. Deitrick was at work in the plant at Danville Wednesday when F. B. I. agents took him into custody.

Conviction carries a $10,000 fine or 30 years' imprisonment, or both.

Former Head Of Western Allegheny Is Killed In Fall

BUTLER, Pa., Jan. 23.—Plunging from a coal bin at his home, Wayne Thomas Carroll, 60, of Chicora, retired general manager of the Western Allegheny Railroad, was killed today in the cellar of his residence. Death was the result of a fractured skull, Coroner J. Charles Dengler reported.

Mr. Carroll had gone into the bin to procure coal for use in the house. According to Coroner Dengler boards had been placed in the bin to keep the coal from rolling into the cellar.

Losing his balance, Mr. Carroll plunged from the bin to the cellar floor. He was dead when medical aid arrived.

RANKS OF AGED RISE

(International News Service)

STATE COLLEGE, Pa.—If Pennsylvania's preliminary census returns for 1940 mean anything, they reveal the ranks of the aged increased about 12 times as rapidly as the state's total population during the past decade. The report, drafted by H. R. Cottam, rural sociologist at Pennsylvania State College, on the basis of changes in age composition, also reveal that the number of persons over 65 years of age was augmented one-third during the 10-year period.

LONDON REAL ESTATE BOOM

(International News Service)

LONDON — London real estate agents are experiencing their first war-time boom. Tempted to return home by the Luftwaffes continued engagement on the Russian front, bomb-scared Londoners are returning by the hundreds and causing a minor housing scarcity. Greatest demand, explain rental agents, is for short 'lets' and for furnished flats. Large homes and long-term leaces continued to be unpopular with a vivid memory of last autumns' air-raids still widespread.

TYPEWRITER PRICES SOAR

(International News Service)

LONDON.—Typewriters are the latest names to appear on the British "Price of Goods Act". The destruction of more than 5,000 typewriters during the heavy London air raids of last fall and winter caused an acute shortage. Expanding government and military bureaus and agencies stimulated the shortage. As a result, prices for new, second-hand, and even old worn out machines have soared.

STEEL MAN FELT LIKE GIVING UP, HE STATES

Retonga Promptly Relieved Terrible Distress From Indigestion And He Feels Fine Now, Says Mr. Chambers. Eats Anything On Table.

Every day adds to the happy and grateful endorsements of Retonga by well-known men and women who report this noted medicine promptly relieved them of years of stubborn distress from acid indigestion, nervousness, weak, rundown feeling, loss of weight, and strength, muscular pains, insomnia, and similar harassing symptoms due to need of a gastric tonic, constipation, and lack of Vitamin B-1 for nerves, strength, and digestion. For instance, Mr. Benjamin F. Chambers, 108 Temple St., Aliquippa, a valued machine operator at Jones & Laughlin Steel Co., declares:

"I had plenty of trouble with indigestion the last two years." I lost all desire to eat and what I did force down caused so much gas in my stomach it worried me all the time. Sometimes the pain felt as sharp as a knife. Constipation troubled, and I slept so poorly I would wake up every morning feeling so tired and wornout I could hardly drag myself off to work.

"Retonga relieved this distress from indigestion and gas and I can hardly get enough to eat. I sleep fine and get up feeling so rested I am anxious to tackle a big day's work. The constipation is relieved, too, and I hardly remember when I ever felt better. I wish I could tell everybody who suffers like I did about Retonga."

Thousands praise Retonga. If the first bottle of this noted medicine fails to bring gratifying benefits, get your money back. Retonga may be obtained at Eckerd's and Pay Less Stores.—Adv.

Food Will Cost More Say U.S. Economists

By HAYNES MAHONEY
International News Service Staff Correspondent

WASHINGTON, Jan. 23.—Agriculture department economists said today that the consuming public will have to spend more for food in the future, when rising marketing costs are added to present retail prices.

Retail prices have advanced sharply since the spring of 1941, the department said in its agricultural situation report, but most of this increase in price went directly to the farmers for higher farm commodity prices. There has been no important increase in the "take" of middlemen from the consumer's food dollar so far, according to the report.

But sooner or later, the economists say, these marketing costs, which cover processing and distributing, must rise. And when they do, a real spiralling of retail food prices can be expected, the experts indicated.

Up Sixteen Per Cent

Retail price advances have continued moderately during the past month, the bureau of labor statistics reported, and the average man is now paying 16 per cent more for food than he paid a year ago.

Prices advances were particularly numerous for meats, navy beans, sugar, and lard. Fresh milk prices were higher in Boston, Philadelphia, Cleveland, and Detroit, and lower in New York and Houston. In 19 of the nation's largest cities, bureau statistics showed an increase of 3.2 per cent in round steak prices, 2.8 for roasting chickens, 2.6 for pork chops, 3.5 for navy beans, and 12.2 per cent in cabbage prices.

The general level of retail price increases is still not high enough to suit the bureau of agricultural economics, however, which claims that retail prices have not yet felt increased marketing costs.

Costs Are Rising

Besides rising farm prices, labor costs are increasing; tin, paper, and certain fabrics for packing foods are becoming scarce and pushing up packing costs, while transportation charges have risen and will go up again.

All this adds up to greater marketing costs, but so far the farmers have been taking an increasing portion of the consumers' dollar, while processors and distributors have not enlarged their share, according to the report.

Eventually a new climb in retail prices will come, economists predict—though they will no longer attempt to say when—and it will be particularly hard on a large segment of American citizens who live on fixed incomes. These government workers, school teachers, municipal employes and other salaried workers who have no way of scaling their income according to living costs, will suffer when the real food price rises strike, it was indicated.

The agricultural situation report pointed out that while prices still remain considerably below food costs in the prosperity years of 1920 and 1929, a typical factory workers' earnings are 15 per cent higher than the 1920-29 average.

U. S. Navy Wants 5,000 Radio Men

Requirements For Radio Technicians And Radio Maintenance Men Announced

United States navy needs 5,000 radio technicians and radio maintenance men, D. C. Ritchie, chief shipfitter and one of the men in charge of the New Castle recruiting office, announced today.

Applicants must fulfill the following requirements:

(a) Be a high school graduate.

(b) Hold or have held a class A or B license.

(c) In the absence of qualifications under (B) above, must be actively engaged in radio repair or service work or have had experience in connection with high frequency design, transmission, or reception.

Men enlisted under the above program will be ordered immediately to active duty and forwarded to the Naval Training school (radio) at Los Angeles, if enlisted west of the Mississippi, and to the Naval Training school (radio) Norton, Connecticut, if enlisted east of the Mississippi. The San Francisco Radio Material school will probable be ready to receive students about February 1, 1942.

Thereafter, enlistees will be sent direct to that school or Radio Material school, Bellevue, D. C., until their capacities are filled. When these capacities have been reached, the recruiting service will be notified, and new enlistees will be placed on inactive duty immediately following enlistment, until they can be accommodated.

The procurement quota for this program is five thousand (5,000) men. It is desired to enlist one thousand (1,000) men within the next sixty (60) days and the remaining four thousand (4,000) by October 1, 1942.

All men desiring further information should visit the local U. S. navy recruiting station, post office building.

NEW ANTI-NAZI WEAPON
(International News Service)

LONDON.—Dutch workmen and industrialists have found a secret weapon—feigned stupidity—to annoy the Nazis, according to Vrij Nederland, Free Dutch newspaper published in London. A Dutch professional man who has escaped to Britain said: "The Germans are completely baffled in their efforts to stop this weapon. "They realize that it is this invisible 'go slow' campaign that is causing the slump in Holland's production.

Delicious New **READY-TO-EAT**

OATMEAL CEREAL

that provides all these important

NUTRITIONAL VALUES OF OATMEAL:

Vitamin B_1... Vitamin G

Calcium... Phosphorus... Iron

CORN *and* TAPIOCA

ADDED FOR EXTRA CRISPNESS... AND TEMPTING NEW "BLENDED" FLAVOR!

Here's the breakfast food America's been waiting for... the kind of breakfast food you've *always* wanted: an OATMEAL CEREAL THAT COMES ALL READY TO EAT!

And if you act AT ONCE... you can get *2 full-size packages for the price of one*, plus only one penny extra.

CHEERIOATS is waiting for you at your grocer's right now, but this 1¢ sale is for a limited time only. So go to your grocer's *now, today*... purchase 1 package of CHEERIOATS at its regular price ...and receive a second full-size package for only 1¢ extra!

CHEERIOATS is the breakfast food of tomorrow... brought to you today! Imagine getting important vitamin and mineral nutritional values of oatmeal... in this tempting, *ready-to-eat* cereal! No need, now, to slave over a hot stove in order to give your family a truly *nourishing* breakfast. CHEERIOATS is all *ready to eat*, just as it comes from the package.

Try different, delicious CHEERIOATS *right now*... while you can get two full-size packages for the price of one and only a penny extra. Offer good for a limited time only. Get yours today! CHEERIOATS is made by General Mills, Inc., Minneapolis, Minnesota.

TALK ABOUT NOURISHMENT! CHEERIOATS... in delicious ready-to-eat form... actually provides all these important vitamin and mineral nutritional values of oatmeal: ... Vitamin B_1, Vitamin G, Calcium, Phosphorus and Iron. And CHEERIOATS supplies them all in *full oatmeal proportions*. For CHEERIOATS is 75% ground oatmeal ... with 10% corn and 10% tapioca included, to help make it *extra crisp* ... and to help produce that tempting, "blended *flavor*."

Here's the easy way to help get the rich food-energy, and certain precious vitamins and minerals that every man, woman and child must have to enjoy robust health and vigor.

NO MORE COAXING needed now to get boys and girls to eat the kind of breakfast they need. Children *love* this oatmeal cereal that comes all ready to eat ... in the novel, appetizing form of little toasted "doughnuts" that stay delightfully crisp in milk or cream. The blended *flavor* of CHEERIOATS is so *different* it would even be a surprise to Mother Nature herself! Corn and tapioca included with the oatmeal helps to produce a different, *satisfying* flavor.

NOW AT LAST it's possible to give your family important vitamins and minerals found in oatmeal... without standing over a hot stove. All you do is open up that gay yellow CHEERIOATS package ... pour those tempting little toasted ringlets into a dish ... and *start eating*.

For CHEERIOATS gives you full oatmeal amounts of:

Vitamin B_1, (Thiamin) essential for helping to turn carbohydrate food into energy; needed by children for normal growth and by everyone for normal functioning of the nervous system.

Vitamin G (Riboflavin), important in maintaining body weight and growth in children.

Iron, Phosphorus and Calcium ... minerals needed to make red blood and strong bones and teeth.

CHEERIOATS supplies all these nutritive essentials ... *and all of them in full oatmeal amounts!*

Thus you get much of the same kind of advantage you'd get from oatmeal itself in building up a strong, healthy body.

CHEERIOATS is a registered trade mark of General Mills, Inc., Copr. 1942, General Mills, Inc.

Secretary Hull Says U. S. Studying Possibility Of Hemisphere Move

ARGENTINA WILL GET ASSISTANCE

By KINGSBURY SMITH
International News Service Staff Correspondent

WASHINGTON, Jan. 23.—Expressing deep gratification over reports that the Latin-American nations will join with the United States in outlawing the Axis from the western hemisphere, Secretary of State Hull today announced the American government is exploring the possibility of removing all tariff restrictions on some of the more important strategic raw materials shipped to this country from South America.

Hull said experts of the various government departments are studying the question of eliminating the tariff restrictions on certain war supplies which are shipped across the borders of American nations for the purpose of hemispheric defense.

Hull's announcement followed disclosure that the United States is planning to extend increased economic assistance to Argentina in return for that country's final willingness to cooperate with the other American nations at the Rio conference in approving the severance of diplomatic relations with the Axis powers.

Commenting on the Rio report that all of the Latin-American nations will agree to banish Axis representatives from this hemisphere, Hull said the action being taken by the foreign ministers assembled at that conference is an excellent illustration of the solidarity and spirit of cooperation that exists among the American republics when faced with common danger from without.

The secretary said he knew that each of the American republics will continue to go forward in the most desirable way in carrying out the spirit of hemispheric solidarity and defense.

Buys Two Defense Bonds With Funds She Has Been Saving

"Now that our country is at war, I have decided to put the money that I started to save five years ago to spend on a good time after I graduate into buying two defense bonds and stamps and to start a third."

This is the decision of Miss Glorita Cioffi, who has just became a member of the Junior B class in the New Castle high school.

"My country has done a lot for me and I feel that this is something I can do to show that I appreciate the chance I have to go to school and have freedom that people in other countries don't have," Glorita told our reporter when interviewed.

"I know a lot of girls who are saving money to buy clothes with, a car or who are just saving it to have a good time with, who could put their money into defense bonds now because our country needs it and at the same time be saving it."

Glorita, who is the daughter of Dom Cioffi of 25 East Reynolds street, has been hoping to become a dress designer but thinks that now "maybe I should be a nurse".

LEAHY NEARLY SPEECHLESS

(International News Service)

CHICAGO, Jan. 23—Frank Leahy, coach of Notre Dame's undefeated football team, was practically speechless today.

It was the banquet circuit and a long series of dinner and luncheon engagements which left him that way, suffering from acute laryngitis. He came to Chicago for examination and will make no more talks until the irritation disappears.

Little-minded men are always suspicious. If you give one a necktie, he thinks it a hint to hang himself.

Pitt Men Trace 'War Nerves' To Deficiencies In Vitamins

PITTSBURGH, Jan. 23.—Is it possible that "war nerves" can be in part prevented with a vitamin-rich diet? Could the soldier who "cracks up" under artillery fire and dive bombing be partially protected from shock by special food?

These and other questions vital in war preparations are naturally suggested by discoveries of University of Pittsburgh scientists.

Dr. H. W. Karn and R. A. Patton have found, while experimenting with hundreds of albino rats, that some of the rats barely blink an eye when a loud buzzer is sounded, but that other rats—hearing exactly the same noise—suffer convulsive seizures and roll over unconscious.

There would be nothing remarkable about that if it weren't that the shock-proof rats were eating food containing lots of vitamin B-1, whereas the rats "knocked out" by the buzzer's noise were fed a diet only moderately deficient in that nutrient.

Dr. Karn and Patton haven't carried their experiments far enough to say that vitamins provide a defense against shell-shock in humans, but they will admit that:

"If the results with experimental animals have even a reasonably close bearing upon human physiology, it is clear that a new approach has been provided for the study of performance under severe conditions of noise exposure in industry and in military service of such types as tank corps, aviation, artillery fire, and sustained bomb attacks.

For long, experimental psychologists considered such behavior "purely mental," blaming it on mental conflict or confusion. When Karn and Patton first found nutrition a factor in the rats' behavior, they took their problem to Dr. Charles Glen King, discoverer of vitamin C and director of bio-chemical research at Pitt.

Under his direction the experiments have been carried on since then; and blame for the rats' nervousness has been squarely put on specific ingredients in their diets.

The easily-shocked rats aren't starving, the Pitt research men warn, explaining:

"Their diets are almost normal. The rats grow normally and they are capable of reproduction. They look healthy.

"It should also be remembered that they never become accustomed to the buzzer's noise. No matter how many times they are 'knocked out' by it, they continue to react to it. We cannot blame this reaction on surprise. It is a matter of fundamentally bad diet, and the only way to correct it is to correct the diet."

Dr. Karn and Patton say that scientists have long recognized vitamin deficiency as a factor in poor nervous stability. The present research is striking in that the deficiencies are not evident in terms of general behavior or appearance.

The experiments, however, show that mental upsets may be prompted by a vitamin deficiency so slight that it could easily be overlooked in planning food for combat troops.

Honor Penn-Ohio Coach Line Drivers

Three Operators Drive Buses 15 Year Without Accident

Twelve drivers of Penn-Ohio Coach Lines Company received special awards for outstanding safety achievements last night at the annual safety banquet of the company at Edinburg, Ohio.

Three of them, B. P. James, of Warren, and Alvin Miller and W. E. Smith, of Youngstown, completed in 1941 periods of fifteen years without a chargeable accident.

Six others, John S. Baker, of Youngstown, and John T. Bowling, Walter J. Fenchel, R. F. Fritzsche, R. D. Ross and L. C. Smith, of Akron, set similarly accident-free records for ten years.

Three more men, F. R. Bebb and R. A. Weimer, of Akron, and J. J. Emig, of Youngstown, received awards for five years' freedom from chargeable accidents.

The awards were presented by R. N. Graham, executive vice president of the coach lines. He reviewed briefly the accident record of the coach lines in 1941, in which all classifications of accidents were reduced 11.5 per cent, and chargeable accidents were cut nearly in half, there being 22 in 1941 as compared with 43 in 1940.

ARMY BOOSTS SHOE ORDER

Army shoe procurements will be more than doubled, starting next May, the war department announced today. Present quartermaster corps purchasing plans call for "stepping up" service shoe procurements to two and a half million pairs a month, or a little more than twice as many as are now being bought.

Lawrence County Farms And Farmers

By H. R. McCulloch, County Agent

ANNOUNCE NEW SHRUBS FOR ORNAMENTAL USE.

To have hardy and attractive trees and shrubs is the aim of every home owner. During the past 12 years, research workers in the Department of Horticulture, The Pennsylvania State College, have brought to the front a number of new trees and shrubs.

One of these new shrubs is syringa oblata dilatata, a variety of lilac. It is a hardy shrub which may reach a height of 15 feet. The leaves are brownish red as they unfold, they become a dark green during the summer and turn a dark purplish red in autumn. It is one of the few lilacs effective in the fall.

The pinkish lavender flowers of this syringa bloom in late April and early May.

4-H CLUBS SHOW AND SELL BABY BEEVES.

4-H Club members in 18 counties have just completed the sale of their 271 baby beef steers. These animals weighed 263,746 pounds and sold for a total of $37,547.

Each baby beef club in the 18 counties held a round-up at which the club members fitted and showed their steers. The best animals in each county were not sold but comprise 100 additional baby beeves which will be judged at State Farm Show in Harrisburg. These 100 are the cream of the state and will be sold there.

In order to sell their steers, the 4-H Club members used the marketing facilities available in many of the counties. In other counties they set up their own markets. The complete success of all the sales was due largely to the exceptional cooperation of those connected with the established markets as well as the local leaders of the various clubs. Because of this splendid cooperation of buyers and merchants, satisfactory local markets have been established in most of the counties.

And what do these 4-H members gain? The club members learn how to feed and care for a beef steer. They acquire the skill of fitting and showing. And while working with a baby beef, each boy or girl finds out whether he likes to feed beef animals. Many find beef cattle to their liking, and after they finish 4-H Club work, they continue feeding steers on a commercial scale. Some credit can be given to 4-H Club members for increasing the supply of good beef in Pennsylvania, more and more of which is being sold locally.

TEST YOURSELF WITH DIET QUIZ.

Are you giving your family the food they need? Do you get your money's worth from every food dollar? Do you waste food? Are your cooking methods up-to-date? Does your family enjoy your meals?

The following quiz worked out by the Bureau of Home Economics of the United States Department of Agriculture will help you test yourself on these points, remarks Miss Boneita Gordon, Home Economics Extension Representative of Lawrence County. If you pass with colors flying, you're an A number 1 manager and are doing a lot to help out in a time of crisis by keeping your family healthy and happy.

Do You Have A Plan?

1. Do you have a working knowledge of nutrition facts? That is, do you try to include in your meals every day at least the following:

MILK—3-4 to 1 quart every day for a growing child; 1 quart for expectant or nursing mothers; 1 pint for every one else. TOMATOES, ORANGES, GRAPEFRUIT, GREEN CABBAGE, RAW SALAD GREENS—1 or more servings for everyone. LEAFY, GREEN OR YELLOW VEGETABLES—1 or more servings for everyone. POTATOES, OTHER VEGETABLES, AND FRUIT—2 servings or more a day. EGGS—1 a day (or at least 3 or 4 a week). LEAN MEAT, POULTRY, FISH—1 or more servings a day. CEREALS—at least 2 servings of whole-grain products or "enriched" bread. FATS AND SWEETS—some butter or vitamin A fat in fat every day, and enough more fats and sweets to satisfy the appetite.

2. If you are on a limited food budget do you know ways to cut cost without cutting nutritive value? For instance, do you know how to use cheaper forms of milk, and the special value of potatoes, sweetpotatoes, whole-grain cereals, dry beans and peas, and peanuts?

3 If you live on a farm or in a small town and have some land—do you plan home food production to cut costs and get a better diet? Do you plan on a year-round basis—grow some extra in the summer to put up for winter?

Do You Know Your Groceries?

1 Do you shop on the basis of your weekly menu plans—buy staple foods in bulk when you save money that way?

2. Do you know when fruits and vegetables are "in season" and cheapest? Can you take advantage of food bargains by revising your menu plans to suit them?

3. Do you watch scales, read labels, look for Government grades, know your cuts of meat, recognize quality in most fresh vegetables and fruits?

4. Do you buy by weight or by quantity rather than by price?

5. Do you compare costs of food in different stores—check your purchases before you leave a store?

Does Your Cooking Save Food Values?

1. Do you cook all protein foods—eggs, milk, meat, cheese, poultry, and fish, at low or moderate heat to keep the protein tender?

2. Do you cook meat according to cut—treating tender and less tender cuts differently?

3. Do you avoid overcooking of all foods?

4. Do you cook vegetables in as little water as possible, as quickly as possible, and use all cooking water in sauces, gravies if you can't serve it with the vegetable? Do you leave the lid off the pan while green vegetables are cooking and never add soda?

5. Do you combine your leftovers into appetizing new dishes?

6. Do you save bacon fat and meat drippings to add flavor to other foods?

7. Do you avoid thick peelings?

8. Do you start the cooking of frozen fruits and vegetables before they thaw out—or if you eat them raw serve them immediately when they are thawed?

9. Do you avoid failures and food wastes by careful measuring heat control, and scientific cooking methods?

Do They Eat It?

1. Do you serve food attractively?

2. Do you have variety of food, of color, of texture, of flavor?

3. Are your sauces and gravies free from lumps—your hot foods hot—your cold foods cold?

4. Does your family have fun at the table and talk about things more interesting than what's wrong with the food?

5. Finally, the acid test—do they ask for second helpings?

How Do You Score?

This quiz is really four separate quizzes and should be scored that way. Grade yourself by the number of times you could answer an unqualified "yes". If you answered yes to practically all—Keep up the Good Work. If you answered yes to over half—You're on the Right Trace,—room for improvement. If you answered yes to less than half—Do Something About It.

It is quite likely that you may have scored high in one of the quizzes, very low on another. Your score will give you an idea of the places you can improve.

ACCURATE REPAIR ORDER INSURES CORRECT PARTS.

Accuracy is the watchword when ordering farm machinery repairs. Nothing is more discouraging than to order a repair part for a farm implement, and then to discover that the wrong part has arrived because of an error made in ordering. It is even more imperative now that no mistake be made.

Certain information is necessary for the implement dealer to order repair parts accurately. The type of machine—binder, plow, mower—is, of course, necessary. Then the name of the manufacturer—the "make" of machine—is important. Any distinguishing features are helpful such as a 6-foot or 8-foot binder, or right or left hand plow. It is important to give the model number, or letter, and the year of manufacture, if known.

Most parts have a serial number. If the part has a number which is still legible, it should accompany the other information. Many times this is not available, or is not accessible—as might be the case with bearings. In this event the serial numbers of the adjacent parts will help identify the repair part. Serial numbers of adjacent parts should be used as reference numbers when ordering any repair parts.

GARDENERS' CORRESPONDENCE, SHORT COURSES ANNOUNCED.

A special two-weeks short course from February 4 to 18 in home and community gardening will be given by the Pennsylvania State College.

The course will consist of lectures, assigned readings, and practice in various operations connected with garden planning, variety and seed selection, soil preparation and management, plant growing, cultivation, fertilizers, disease and insect control, nutritional properties of vegetables, and storage and preservation of garden products.

Those gardeners who cannot get to State College for the short course, may be interested in the correspondence course offered by the College.

Seven lessons comprise the course and if one is completed each week, the student will have finished the course before work outdoors is necessary.

Subjects covered include location, size and planning, seeds and growing of plants for transplanting, soil preparation, liming and fertilization, tools and equipment, cultural practices, and disease and insect control.

This course is offered free of charge and further information may be obtained by writing W. R. White, Rural Educational Building, State College, Pa.

LEESBURG

ANNUAL MEETING

The annual Congregational meeting was held at the church Thursday.

At noon a tureen dinner was served followed by the election of officers for the new year.

Chairman, Donald Rice; secretary of congregation, Mrs. Margaret Sankey; elders, Charles Sankey, W. S. Drake and James Grundy; trustees, Gaylord Armstrong and Edward Millison; financial secretary, Mrs. Carmen Hawthorne; treasurer, Mrs. Frank Palmer; benevolence treasurer, Mrs. William Drake; pianist, Alice Bingham, and assistant, Mrs. William Simon; chorister, Mrs. Ellsworth Martin, and ushers, Arden Rice, Rex Orr, David Lloyd and Dick Rice. Auditors elected were Mrs. Aaron Collins, Mrs. Edward Millison and W. W. Hill.

ENTERTAINS CLUB

Mrs. Beulah Foster was a pleasing hostess to members of the Dorcas society at the social rooms of the church Thursday. The hostess was assisted in serving a delicious tureen dinner at noon by Mrs. Walter Armstrong and Mrs. J. A. Culver.

The president was in charge of the business period and the afternoon was spent socially. Mrs. Samuel Oakes will be hostess to the club at its next meeting.

UPSETS CAR

What might have proved a serious accident occurred Monday morning near the Hartt home at Milburn, when a car driven by David Lloyd was turned over in a ditch to avoid hitting a car which tried to pass a truck coming south, the Lloyd car going toward Mercer. Neither David or his father, Rev. W. Lloyd, were hurt, and after the car was pulled back out on the road it was only slightly damaged.

CLASS PARTY

The Search Light Bible class will meet at the church next week and hold their regular class party.

A tureen dinner will be served by the hostesses, Mrs. Paul Knauff, Mrs. Charles Oakes, and Mrs. U. D. McCandless.

MISSIONARY SOCIETY

The Women's Missionary society will hold an all-day meeting at the church Wednesday. A dinner will be served at noon by the hostesses, Mrs. George Sweezy, Mrs. Charles Rhudolph and Mrs. Ralph Cunningham.

SEVENTH WARD NEWS

Grand Auxiliary Meets At Y. W. C. A.

In the Green Room of the Y. M. C. A. a delicious tureen dinner was served on Thursday, at noon, by the members of the Grand Auxiliary to the Brotherhood of Locomotive Engineers.

The regular routine of business, and initiation of candidates followed.

Plans were discussed by the members pertaining to their anniversary party which will take place February 18, in the Y. W. C. A. Green Room.

On February 12, at 1:30 p. m., the next regular meeting will be in the Y. W. C. A.

ST. MARGARET'S CLUB EVENT ON SATURDAY

Saturday evening members of the St. Margaret society and their friends will gather in the club rooms, North Liberty street, for a social event to be held in the form of a sausage fry at 7 o'clock.

Special guests to attend this event will be members of the Sons and Daughters of St. Margaret's society and the social members.

Following the tasty meal, an informal social hour has been planned, according to Bartolomeo Lombardo, chairman of the event. A group of committees will assist Mr. Lombardo.

SHOP WORKER HAS INJURY TO HEAD

Frank Barattiero, of 102 South Cedar street, suffered severe injuries of the head while at work at the Pennsylvania R. R. shops, Thursday morning about 10 o'clock.

A pile of material fell over, striking Barattiero on the head, inflicting a severe scalp laceration and bruises. He was taken to the Jameson Memorial hospital, where he is undergoing treatment.

SPECIAL MEETING SUNDAY MORNING

There will be a special meeting of the congregation of the Madison Avenue Christian church, after the close of the Sunday morning preaching service.

PRESBYTERIAN CHURCH

Sunday morning at 11, during the service, there will be a nursery at the church, available for children from 2 to 6 years of age. At 6:45 p. m., High School Christian Endeavor, with Walter Martin, leader. 7 p. m., Young People Christian Endeavor, Geraldine Weisbaker, leader. 7:45 p. m., Young People's Day Service.

AIR-MAIL FROM ITALY

About 15 air-mail letters were received at the Mahoningtown post office today mailed from Italy. These are the first letters received from that country since last November, and were probably meant to reach here for delivery about Christmas time. Some of the letters were mailed in October, others in November. Of course, they were censored.

SON IN HAWAII

By air-mail letter, Mr. and Mrs. David Evans of Liberty street have received word from their son Private Kenneth Evans, now stationed in the Hawaiian Islands. He states that he is feeling fine, also that the weather is quite warm. The letter was mailed January 12. He listened in on the Louis-Baer fight, which came in good.

About 600 Auto Use Stamps Sold

Superintendent Ed. McBride of the Mahoningtown Post Office reports that from 500 to 600 auto use stamps have already been sold at their office. He believes more would have been sold out of this office had the East Cherry street bridge not been closed. Over this bridge many of the employes in the factories came and travelled through Mahoningtown, and would have purchased the stamps en route home. Until the bridge can be used these folks have to go via the West Pittsburg road up to New Castle.

FORMER RESIDENT VISITS IN THE WARD

Percy Jones of Chicago, formerly of the Ward, was a visitor with J. C. McMillin of North Liberty street Thursday.

Thirty years ago Mr. Jones was employed in Mr. McMillin's drug store, and had an enjoyable time reminiscing. Former Sheriff Cy Ingham dropped in the store and joined in the chat, knowing Mr. Jones quite well. Percy was here attending the funeral of his mother, Mrs. George Jones, of the former Wayside Inn, in the Ward.

SERGEANT JONES RECUPERATING HERE

Staff Sergeant Burton Jones of Fort Knox, Ky., is here on 15 days furlough, visiting with his parents, Mr. and Mrs. W. T. Jones of Newell avenue.

Sergeant Jones is recuperating at his home, having been confined for a period to the hospital in camp for treatment.

RED CROSS FUND CONTRIBUTIONS

Mrs. G. G. Horchler, of East Cherry street, chairman of the Red Cross Fund, of the Ward, would be glad to know whether any person desiring to contribute to this worthy cause has been missed during the canvass, or if they wish a little more time to enable them to turn in their contributions.

LEAVES TO ENTER U. S. NAVAL SERVICE

Mrs. J. H. Shoemaker and son, Lloyd, of 417 North Liberty street, have left for Mt. Plymouth, Florida. There, Lloyd will enter the U. S. Naval Service.

H. G. L. CLUB

At her home on South Cedar street Miss Constance Palmiera entertained members of the H. G. L. club.

Sewing was the main diversion of the evening.

A delicious lunch was served by the hostess, assisted by her mother, Mrs. Mary Palmiera.

Mrs. Mary Iannotta was a special guest.

The next meeting will be at the home of Miss Mary Santile of Lacock street on January 28.

TO SPEAK SUNDAY

On Sunday afternoon at 4 o'clock Rev. John Earl Myers Jr., of the Presbyterian church, will deliver the sermon during the Ministerial hour over Station WKST. His subject will be "The Christian's Security Today." He will be supported by music by the choir, accompanied by Mrs. Clarence W. Allen.

7TH WARD PERSONALS 1 1

Misses Ruth and Eleanor Gilmore, of R. D. 7, Mahoningtown, are confined to their home with illness.

SEVENTH WARD PERSONALS

Mrs. M. Spina, of 11 Darlington avenue, has been taken to the New Castle hospital, for treatment.

Donald Harman, of R. F. D. No. 7, has been admitted to the Jameson Memorial hospital for treatment.

Mrs. Thomas Doyle, of Ashtabula, Ohio, is visiting at the home of her cousin, Mrs. G. G. Horchler, of East Cherry street.

Mrs. Caroline Rainey, and infant, of 24 North Wayne street, have been returned to their home, from the New Castle hospital.

Mr. and Mrs. Ray Derskin, of Kalabazoo, Mich., are the house guests of Mr. and Mrs. W. C. Powers, of Mt. Jackson road.

Mrs. Alice Taylor, of West Madison avenue, has left for Newton Falls, Ohio, where she will visit with Mr. and Mrs. W. C. Fowler.

EDENBURG

Mrs. Storti, of Crawford avenue, is confined to her home with illness.

Mrs. Ray McKay and son, Raymond Albert, were Thursday shoppers at New Castle.

Mrs. Albert Wigton and Mrs. Joseph Wigton were Wednesday shoppers at New Castle.

Mr. and Mrs. John Shaffer and daughter, Saxon Kay, of New Castle, were callers at the home of Mr. and Mrs. Roy Raub, of Jackson street.

Mrs. John Robinson and daughter, Joanne; Mrs. Millie Planto and daughter, Donna Jean; Mrs. Dale Gibson and Mrs. Roy Gibson were recent visitors at the home of Mrs. Ray Biddle.

A group of women members of the Woman's Society of Christian Service, of the Methodist church, met at the home of Mrs. Mabel Unangst Wednesday evening and packed a number of boxes to be sent to boys in camp from the community.

Pupils Eligible For Navy Reserve

Effective immediately, students in schools or colleges who have reached their 17th birthday and who have not reached their 20th birthday may enlist in the United States Naval reserve in Class V-1, it was announced today.

At their own request, this group will be placed on the inactive duty until completion of the current scholastic year, unless the country's military situation necessitates active duty.

Further details can be obtained at the New Castle recruiting office in the post office building.

There is plenty of efficiency in Washington. The trouble is that nobody has authority beyond his office door.

Japan has squared accounts. It was our navy, you remember, that made her wake up.

TIPS ON PIG FEEDING

(International News Service)

STATE COLLEGE, Pa.—Little pigs get big faster and make better bacon for Britain or baked ham for Americans if fed certain amounts of high protein feeds along with their corn or cereal rations. Trials conducted by T. B. Keith and R. C. Miller, animal nutritionists at the Pennsylvania State college, indicate how much tankage, soybean oatmeal, and alfalfa meal should be fed along with corn to make a pig grow fastest in the cheapest way.

Mrs. French Named Red Cross Key Nurse

Succeeds Miss Devereaux, Who Has Resigned Because Of Ill Health

Mrs. Travis A. French, who has been active in Red Cross nursing activities, has been named key nurse of the Pittsburgh local committee, succeeding Miss Margaret Devereaux, director of nurses at the Jameson Memorial hospital.

Miss Devereaux has been forced to resign because of ill health and the press of duties in her own position.

She will supervise the activities of all Red Cross nurses enrolled in Lawrence county in the event of any emergency for which they may be called.

There were 66 men who made non-stop flights over the Atlantic ocean before Charles Lindbergh. His, however, was the first solo flight.

Over 1200 Books Already Given

Victory Book Campaign Is Speeding Along Towards County Goal

BOOKS ARE TO BE SENT TO CAMPS

Books for the "Victory Book Campaign" are coming in to the city library rapidly now. Since the report yesterday, 233 more books have been received, which brings the total contribution to date to 1206 volumes. The county goal is 5300.

The books that have been given are unusually fresh and readable, the fiction and non-fiction containing a number of best-selling biographies and novels. We saw a brand new copy of "The Sun Is My Undoing" that came in today. Many adventure and mystery books have been sent in.

It is not surprising that the number of technical books contributed is small, but there have been some given. These and textbooks too, are wanted by the service men.

A Bible brought in says on the flyleaf that it was "presented to Kenneth C. Hanna, New Bedford, Pa., for selling 48 'Bible mottoes'".

Call 2103 if you have timely books in good condition that you want to give and are unable to bring to the public library, and a Boy Scout will come for them.

ROSE POINT

L. T. L. MEETING

The Rose Point unit of the L. T. L. held their meeting on Saturday afternoon, Jan. 17, at the home of Barbara Alice and Billy Smith. The devotionals were led by Alice Smith and a business was presided over by Lloyd Michaels. Temperance talks were given by Mrs. Hazel McClymonds, Mrs. Mona Stoner and Mrs. Alvin Smith. After the meeting games were played and refreshments were served. The next meeting will be held on February 21, at the home of Mary Margaret and Irene Pryor. The leader, Janet Armstrong.

CLASS MEETING

Mrs. Audley Gibson entertained seven members of the Rainbow Bible class of Oak Grove church Thursday at her home on the Butler road. The day was spent in quilting. Mrs. Esther Conrad led the devotions and the business meeting was presided over by the president, Mrs. Nellie Steffler. At noon a delicious tureen dinner was enjoyed. The next meeting will be held at the home of Mrs. Beatrice Gibson, of Princeton.

YOUNG PEOPLE'S SOCIAL

The members of the Young People's of the R. P. church gathered at the home of Annette Smith on Friday evening for a social time. The evening was spent skating at a pond near the Smith home. Others spent the evening playing games inside. Later in the evening a business meeting was presided over by the president, Miss Mary Jane Wilson, and the following officers were elected: president, Rose Munnell; vice president, Carl McElwain; secretary, Mabel Young; treasurer, Ralph Wilson. Refreshments were served by the social committee.

MISSIONARY MEETING

The Women's Missionary society met at the parsonage with Mrs. Alvin hostess. The day was spent in quilting a quilt for the southern mission and sewing quilt patches. The devotions were led by Mrs. Ira Brown. Subject, "The Book of James". The business meeting was in charge of the president, Mrs. Alwin Smith. A delicious dinner was served and enjoyed. The next meeting will be at the home of Mrs. Harry Wilkinson, with Mrs. Laura Boggs, co-hostess.

Civilian Defense Plans Progress

Leaders Are Announced—Civilians Are Being Enrolled For Service

ELLWOOD CITY, Jan. 23—The Civilian Defense program here in Ellwood City is making rapid strides and Ellwood City can well be proud to be one of the few cities throughout Pennsylvania that is being set up on a real working and preparedness basis.

The Classification Committee is still selecting and filing the names of those persons who have enrolled in the Civilian Defense program so as everyone registered will be properly placed on the committee that best fits their physical make-up and occupation.

Everyone who has enrolled will be given an opportunity to serve on some commitee. Anyone still wishing to sign up for this volunteer work may do so by signing a card at the Police Clerk desk in the municipal building.

The Civilian Defense Executive Committee and committee chairmen are as follows:

Executive Committee — Clyde B. Houk chairman, Wm. McGlincey, vice chairman, R. R. Downing, R. J. Schill, Lewis Eymer, D. E. Cain, Robert Hodgson, Chester Rodgers, Elmer E. Greenham, Harold Parker, Paul Cartwright, E. H. Evans, Robert Taylor, secretary, Ed. Mackasek, T. Howard Jones, Joe Carbeau, R. B. Luke, W. F. Duncan, R. Wayne Baird, Ernest Hartman, Tom Carey, Thomas Sleighter, Al Milbrath, Thomas A. Wilson.

Classification Committee — Ed. Mackasek, chairman; Chester Rodbers, auxiliary fireman; Ernest Hartban, police auxiliary; R. Wayne Baird, chief air raid warden.

Medical Corp. — Dr. H. E. Helling, chairman; Dr. A. M. Giglietti, vice chairman; Nurse Corp, Miss Lorena Thompson; Driving Corp., Lewis Wymer; Demolishing and Clearance, Wm. Weiskopf; Road Repair, Oscar Dahl; Messenger Corp., Elden Danner; Publicity, R. J. Schill; Emergency Food and Housing, Robert Shearer; Decontamination Corp., Morrison Bradley; Rescue Squad, Frank Potter; Bomb Squad, Frank Straw.

Jury Deliberates Shooting Verdict

BEAVER, Pa., Jan. 23.—A jury in civil court will decide whether or not an 18-year-old youth should pay the parents of a boy he shot accidentally and how much.

Judge Henry H. Wilson took the slayer's father, January Frisk, and an older brother who owned the target rifle, Nick Frisk, out of the case.

Frank DeCecio and his wife, Elizabeth, parents of the dead boy, of Ellwood City, are the plaintiffs in the case. They seek to recover for the fatal shooting of their son, Nick DeCecio, on May 29, 1940, near Ellwood City.

The only defendant left in the case is George Frisk, 18, who was absolved of any criminal intent shortly after the shooting.

George and some companions had a rifle and approaching them were Nick DeCecio, his brother Tony, 16, who had another rifle, and John Yannellio, 12.

In some manner the rifle of George Frisk was discharged and the bullet went through the hand of young Yannellio and struck Nick DeCecio in the abdomen. He died shortly afterwards.

The suit in the hands of the jury is to determine whether George Frisk, a minor, is liable for damages, and if so, how much.

Judge Wilson said in effect that the DeCecio family could not collect from the slayer's father, January, or from his adult brother, Nick, who owned the rifle.

BASKETBALL GAME

ELLWOOD CITY, Jan. 23.—Tonight Ellwood City high school basketball team goes to Aliquippa for a sectional game, and next Tuesday night will end the first half at home with New Castle.

TICKETS AVAILABLE FOR DIES' ADDRESS

ELLWOOD CITY, Jan. 23.—The New Castle Consistory Legion of Honor will present Congressman Martin Dies on Thursday evening, January 29th, at 8 o'clock at the Scottish Rite Cathedral in New Castle.

Congressman Dies will speak on the "Trojan Horse in America" and the entire proceeds will be turned over to the Lawrence County Red Cross War Fund.

Tickets for reserved and unreserved seats are available at the Chamber of Commerce.

Eagles Auxiliary Plans Initiation

Ritualistic Ceremony To Be Held Sunday Afternoon At S. W. O. C. Hall

ELLWOOD CITY, Jan. 23—Final arrangements of the initiation service to be held on Sunday afternoon at 2 o'clock at the S. W. O. C. hall, Lawrence avenue, were made by members of the Eagles Lodge Auxiliary last night.

The ritualistic work will be exemplified at 3 o'clock and all members of the lodges and relatives of the candidates are invited to attend. At 5:30 o'clock, a dinner will be held at the hall, in Seventh street, with dancing to be the evening diversion. Twenty members will be initiated.

A $5 contribution was voted to the Red Cross and it was decided to attend an Americanization meeting to be held by the American Legion on Tuesday, February 10, at the high school.

Mrs. Esther Bloom won the attendance prize, Mrs. Mary Bunney, Mrs. Adeline Blank and Mrs. Helen McCronich were named as the entertainment committee for the next three months.

Bingo followed with tempting refreshments being served by Mrs. Kathryn Hall, Mrs. Harriet Hughes and Mrs. Mary Lawrence.

The drill team will practice at 7 o'clock tonight, and the next meeting is slated for Thursday, February 12.

Good Response To Drive For Books

ELLWOOD CITY, Jan. 23.—The first day of the "Victory Drive" for books for Army Camp U. S. O. centers and smaller camps found a fine response from Ellwood City people.

A total of 155 books was received at the library, and they all had good titles, and unexpectedly more than half of them were non-fiction of the wanted kind.

Ellwood has a goal of 1,500 books and anyone may bring their donation of books to the library at any time. If it is not convenient to bring the books, a Boy Scout will call for them by notifying the library or any scout.

The kind of books that are wanted are fiction, mostly mystery and adventure; biography, pyschology, poetry, history and travel. Technical books are also much needed, but only the latest ones are acceptable.

TRUCK ACCIDENT

ELLWOOD CITY, Jan. 23.—Ferd Kaufman of Lilyville escaped injury on Wednesday morning at 2 o'clock when the trailer truck he was driving overturned near New Philadelphia, O. The trailer was carrying a heavy load of steel, and the shifting of the load is believed to have been the cause of the accident. The truck and trailer went over a 15-foot embankment and was badly demolished. Mr. Kaufman had a difficult time in extricating himself from the wreckage which landed in a swamp.

I. O. O. F. LODGE

ELLWOOD CITY, Jan. 23—A routine meeting of the I. O. O. F. Lodge was held last night with Vice Grand Emmnauel Bathgate, in charge. Plans were furthered for the annual roll call with the Rebekah Auxiliary on Wednesday, February 5.

Rotary Hears Of Community Needs

Members Take Part In Panel Discussion Conducted By Rev. A. M. Stevenson

ELLWOOD CITY, Jan. 23.—A panel discussion on community needs featured the weekly dinner meeting of the Rotary club last night at the Presbyterian church dining room, and was in charge of Rev. A. M. Stevenson.

Those taking part in the discussion were R. J. Schill, Edward Mackasek, William L. Dean and F. E. Moore. Mr. Schill spoke of the necessity for financial cooperation for community needs; F. E. Moore pointed out recreational needs; Edward Mackasek stressed the importance of everyone cooperating with the program of civilian defense now being formuiated, and W. L. Dean emphasized the importance of supporting the Red Cross and other war relief activities.

Mr. Dean was general chairman of the Red Cross drive, and reported that a total of $13,842 has now been received, being just $200 short of doubling the $7,000 quota for Ellwood. He expressed appreciation to his general committee, John E. Powell, W. F. Kegel and R. J. Schill, and especial thanks to the solicitors, who in Mr. Dean's term "really did the work."

The club agreed to support the Victory drive for books and will cooperate with the library.

William Henninger of Bessemer was a special guest.

Franklin Defeats Aetna Standards

Winners Snap Ten Game Winning Streak For Locals With Score Being 56-41

ELLWOOD CITY, Jan. 23.—The Aetna Standard and Franklin basketball teams are now even, inasmuch as the Ellwood team returned home last night on the short end of a 56 to 41 count. The winners snapped a 10 game winning streak for the locals, and last week, Ellwood did the same thing to Franklin.

Loss of Fusco on fouls was felt by the Aetnas. Jimmy Gottuso was high scorer for the locals with 12 points followed by Walt Robuck with 8. Biery was hot for the winners making 21 points and he was followed by Rhoads with 17 markers.

MARY RUGH GROUP AT LILYVILLE HOME

ELLWOOD CITY, Jan. 23.—On Thursday, members of the Mary Rugh society of the Lilyville Church of God gathered at the home of Mrs. Ferd Kaufman, Lilyville, for an all-day meeting.

Eleven members and one guest, Mrs. William Kaufman, participated.

Sewing was the day's diversion with a tempting tureen dinner being served at noon by the hostess.

Another meeting will be held on Wednesday, February 4, at the home of Mrs. Henry Kiesling, North Sewickley.

CHRISTIAN CLASS AT SCHROCK HOME

ELLWOOD CITY, Jan. 23.—Mrs. Mary Ellen James entertained members of the Young People's class of the First Christian church last evening at the home of her parents, Mr. and Mrs. John Schrock, Pittsburgh Circle.

John Miles led the devotions and the business was in charge of Donald Gordon. Games and contests followed with the nice awards going to Mr. and Mrs. Robert Balderson, Mrs. Ollie Aiken and Dorothy Craven.

The hostess was aided by her mother and Mrs. Clyde Schrock in serving a tempting lunch.

Young Funeral Held Thursday

Last Rites For Mrs. Elizabeth Young Held At Enon Valley Christian Church

ELLWOOD CITY, Jan. 23.—Funeral services for Mrs. Elizabeth Badger Young, of Enon Valley, who passed away on Tuesday at her home after a short illness of pneumonia, were held on Thursday afternoon at the First Christian church of Enon Valley with the pastor, Rev. Dyke, in charge.

During the services, a church quartet sang two appropriate selections, "In The Garden" and "We're Going Down The Valley One By One". The services were attended by many relatives and friends, and many lovely flowers evidence the affection of which she was held.

Among relatives attending from a distance were: Mrs. Jennie Bowers and son, Thomas, Greece City; Mr. and Mrs. Lewis Christie, Boydstown; Mrs. Ford McKissick, Slippery Rock; Mr. and Mrs. Andrew McKissick, Euclid; Eugene McClintock, Ellport; Mr. and Mrs. Harry James, Mr. and Mrs. Clyde Young and Mr. and Mrs. Charles Young, Castlewood; Mr. and Mrs. Everett Pander, and Mr. and Mrs. Loy Badger, New Castle; and Mrs. Frank Remler and William Magnus, of Zelienople.

Grandsons, Paul, Clem, Mahlon, Eugene, Clyde and Charles Young, were pallbearers and Harry Young, Jr., of Camp Meade, was an honorary pallbearer. Interment was made in the Little Beaver cemetery.

War Production Victory Slogan

President Of National Association Of Manufacturers Promises Results

INDUSTRY WILL MEET DEMANDS

(International News Service)

PITTSBURGH, Jan. 23.—Let industry alone, and curb the "crescendo of attacks" on its record, and its war production will be limited only by the human endurance of the men who man and manage its facilities, William P. Withrow maintained today in his first speech as president of the National Association of Manufacturers.

Witherow, in urging that "all groups adopt a moratorium on reforms," pointed to industry's production record for the past 18 months. By the first of the year, he said, industry had made actual delivery of defense goods totalling $15,250,000,000, almost two-thirds more than it had been told 10 months before would be needed for the defense program.

The attacks on its war production record "sabotage the unit of purpose for which the president has appealed and to which all patriotic Americans are committed." Witherow, president of the Blaw-Knox Company, of Pittsburgh, told the 68th annual dinner of the local Chamber of Commerce.

He paid tribute to America's fighting forces, and their will to fight with "no more than clubs and sling shots," adding "but such men are doomed to gallant suicide if they are not given proper weapons."

"Your job and mine is to provide the weapons they need," the N.A.M. leader said. "The lives of our youth are too precious to sacrifice unnecessarily to carelessness or work stoppages."

"The victory will be won by those nations whose factories can produce more and better arms most quickly," Witherow continued. "Americans must depend for victory, in the first instance upon the American manufacturing industry.

"A campaign to destroy the public's confidence at this critical juncture in industry and to destroy the morale of industrial management is indisguised sabotage . . . ."

Wihterow excoriated the Truman Senate committee which accused the dollar-a-year men of "lobbying" for their own firms by stating:

"The committee should be reminded of the fact that the men of O.P.M. had had no power of contractural relationships and are empowered in no fashion to grant contracts to anybody. And, second, that American business today has but one customer and that is the United States Government."

Amusement enterprises in Canada are currently enjoying boom business, according to the department of commerce.

Use Of Crude Rubber Further Restricted Now

Bars Use Of Crude Rubber For Manufacture Of Many Articles

(International News Service)

WASHINGTON, Jan. 24—The war production board today issued a comprehensive amendment to the rubber conservation order setting up more rigid control of the use of crude rubber and latex, under which many products familiar to the average citizen may disappear.

The action was takent o reduce the amount of crude rubber and latex available this year for the manufacture of a wide variety of civilian goods by about 75 per cent below recent annual consumption.

Such products as bathing suits, caps, erasers, toys and novelties, lawn and garden hose, trouser belts, combs, golf and tennis balls and other sporting goods, heels for ordinary footwear, household aprons, goods made of sponge rubber and other products of non-essential character can be made in the future only from reclaimed rubber.

Until otherwise ordered, no one may sell, trade or transfer any crude rubber or latex including compounded liquid latex, without permission of WPB or the Rubber Reserve Company. This ban is intended to strengthen the government's control over crude rubber and latex stocks not held by the reserve company.

The drastic control program, issued by Acting Director of Priorities J. S. Knowlson, becomes effective Feb. 1, and sets forth the uses for which rubber and latex will be made available to processors. Except to fill strictly-war orders, these uses are restricted each month beginning Feb. 1 to certain percentages of average monthly consumption during the 12 months ended March 31, 1941.

In certain cases, such as for manufacture of all types of tires, casings and tubes and for retreading and recapping materials, specific permission to use crude rubber or latex must be obtained from WPB. This does not apply to use of reclaimed rubber.

Says Railroads Key In Russia

Expert Sees Operation Of Railroads As Big Factor In Outcome

PEAK OF RUSSIAN WINTER NEARING

(Editor's Note: Field Marshal Lord Ironsides, former chief of the British imperial staff, declares that Russian railroads and their present condition will finally decide the battle of Russia. Soviet ability to operate away from the railroads, he says, is one of the reasons for their present success.)

By FIELD MARSHAL LORD IRONSIDE
Written Expressly for International News Service

LONDON, Jan. 23.—Despite the peak of the Russian winter, the red army continued to advance during the week, forcing the Germans to evacuate their bastion of Mozhaisk and bustling them back toward Vyazma.

The Russian successes here were gained only after desperate fighting and the Germans, although losing many dead, were able to evacuate much of their heavy material by rail to the west via Vyazma to Smolensk.

They thus avoided the pincers at their rear. It is in fact to the Russian railway system that we must look for the key to what the Germans are doing to stabilize their front in the east, for they must supply their armies by rail.

They tried to seize Moscow where all the rail lines converge. Had they done so, they could have cut Russia in two. They failed.

Although we cannot be certain what lines they have been able to repair and maintain, we can make a shrewd guess at what they are aiming.

They have the main north and south rail line from Leningrad through Novosokolinki, Ohsha, Rogachev and Gomel to Bakmach, and so to the south. Although they don't control the northern end, owing to the fortress at Leningrad, at no point are the Russians within 150 miles, and so the Germans have a good deal of distance with which to play in their withdrawal.

Russians Outflanking

From the main line several lines run forward to the east from Novosokolinki to Rzhev, Orsha to Smolensk, Vyazma to Bryansk, and Bakmach to Kursk. It is the head of each of these lines which the Germans are holding as a bastion, and which the Russians are outflanking in turn by deep penetration in between.

It is the Russian ability to operate far away from railroads in this severe winter weather which is pushing the German defense so hard.

The Russians have been pushing hard all along the line but one of their major efforts in the future undoubtedly will be in the Leningrad area to relieve the fortress completely before the spring thaw comes.

Taking into account the exaggeration of enthusiasm in reports about the Germans' sick and casualties, owing to bad clothing and food, the lack of knowledge of how to deal with winter casualties must be very heavy.

These casualties must affect the power of the German high command to initiate a major offensive in the spring—invasion of the United Kingdom, a renewed offensive in Russia, or an air and sea offensive in the Mediterranean.

That the Germans must try to make a major front is certain, and we must be ready for hard fighting in the spring. But with the continued threat of the Russian advance through the winter and into the spring, even the German high command will be hard put to time an offensive correctly.

The situation at Singapore remains critical. There are signs of growing air power and more men for close jungle fighting. The fate of the great base still sways in the balance, but there is no need to despond.

We must fight quietly on here and in the Philippines until we can deploy our strength.

Railroad Man Before Mayor

Charge Mahoning Avenue Crossing Blocked Longer Than Allowed

Today a railroad man in charge of a P. R. R. train which blocked the Mahoning avenue crossing was before Mayor Charles B. Mayne. After a lecture he was discharged.

He said the train was 100 cars long and he could not cut the train.

His Honor said that a blockade could not be permitted in the future, because of delays to bus operations.

The mayor said that in the future conductors would be required to cut the train before the crossing could be blocked longer than allowed by law.

MAYOR IMPOSES $25 FINE ON TRIO

Fines of $25 each, were imposed by Mayor Charles B. Mayne in police court today following conviction on charges of disorderly conduct of "Fred Kelly". East Long avenue, Joseph Abdoe, Pennsylvania avenue and John Abraham, East Long avenue. They were charged in connection with incidents which concerned a 20-year-old colored girl at the Haddad poolroom, East Long avenue, Wednesday night. The girl was discharged by the mayor.

Abraham escaped from the poolroom Wednesday night but Lieutenant Steiner and Detective Thomas arrested him last night.

SMOKE SCARE

Firemen were called to 24 North Mill street at 1:15 o'clock this morning, when smoke filled the building. It was found to come from the furnace.

Nutritionists Lists Eleven Rules To Follow In Order To Ward Off Winter Colds

(International News Service)

DURHAM, N. H., Jan. 23.—This is that time of year when what to do about a cold out-does any other topic of conversation. This year, however, getting a cold is serious business, insofar as it hampers the nation's defense.

Several schools of thought on how to cut the cost of colds by health plans are springing up throughout the country. Here, at the home of the University of New Hampshire, Miss Elizabeth E. Ellis, extension nutritionist for New Hampshire, contends the nation can save millions in lost work and production if each person does his share to defeat the common cold.

Miss Ellis points out that people in the United States have about two million colds a year, and the cost of each, including the working time lost and medical treatment, averages about $15.

Rules To Avoid Colds

Keep the body in tip-top physical condition, is her advice, and gives the following steps whereby the body can be kept fit and able to ward off colds:

1. Get plenty of rest. Eight hours of sleep for adults, and ten for children are ordinarily adequate.
2. Eat enough protective food: milk, eggs, vegetables, fruits, butter and fish liver oils that are rich in vitamins
3. Drink plenty of water, six to eight glasses a day with and between meals.
4. Avoid extremes in temperature. Dry overheated rooms are as dangerous as exposure to excessive cold.
5. Get fresh air and exercise, through daily walks or other recreation
6. Wear clothes suited to the weather and keep the feet dry. Too many clothes may be as harmful as too few.
7. Avoid constipation through regular habits and exercise
8. Make bathing a regular habit.

Find Bodies Of Two Sisters And Man In Ditch

(BULLETIN)

(International News Service)

BALTIMORE, Jan. 23—Two sisters and an unidentified man, victims of either shooting or stabbing, were found dead today in a roadside ditch in Catonsville, Baltimore suburb.

Their bodies were discovered by Harry Souers, who told police he came upon them on his way to work.

The women were identified as Mrs. Helen Johnson, 21, and her sister, Mrs. Irene Carter, 32. The man was described as being about 40.

Clothing of the women was torn and disarranged, police reported. Their bodies bore bruises and cuts.

Leonard Johnson, estranged husband of Mrs. Johnson, made the identification. He told police he and his wife separated last Thanksgiving.

BITTEN BY DOG

Severely bitten by her dog, Mrs. Ralph Lutz, aged 30, of 460 East Washington street, is reported showing improvement in New Castle hospital.

According to reports, Mrs. Lutz was engaged in covering her dog when the animal leaped up and bit her on the left side of the face.

Her injuries are of such a nature that the skin had to be grafted.

Demands Limit On War Profit

Senator Walsh Demands Immediate Action On Matters By Congress

RESTRICTIONS HAD BEEN REMOVED

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, Jan. 23.—In an impassioned senate speech, Sen. Walsh (D) Mass., chairman of the senate naval affairs committee, today demanded immediate action by congress to limit profits of munitions makers, shipbuilders and airplane manufacturers.

He said that restriction on profits of shipbuilders and airplane manufacturers, which had been forced into previous legislation, was repealed only on demand of the administration that its elimination would help speed production.

Sen. McNary, Republican leader, raised the issue as the senate passed and sent to the White House a bill authorizing $845,000,000 for expansion of shipbuilding, repair and ordnance facilities for the navy.

Citing the report of the house naval affairs committee that huge shipbuilding and aircraft manufacture profits had been made, McNary askel for assurance "that a little more care will be taken in dispersing these funds."

"Humiliation" To Congress

Sen. Walsh declared that it is a "humiliation" to congress to read of 'unconscionable profits' being made.

He said the senate in the original "big navy" bill established a limit on profits, later reduced to 8 per cent on ship contracts and 7 per cent on airplane profits. The limitation passed but was repealed in an appropriation bill, he said.

"It was argued that profits would be reached through a pending excess profits bill," he sail. "I protested, but since the repeal was in an appropriation bill nothing could be done.

"I was bombarded at the time by representatives of business, the Office of Production Management and manufacturers of airplanes. The limitation was removed on recommendation of the administration, which said the limitation delayed production.

Should Limit Profits

"I have from the very outset believed that profits should be limited. It is a source of humiliation to congress to have to allow exposures, at a time when we are marching to the front millions of youths. We should not allow these large profits."

One argument for removal of limitations, Walsh said was that subcontractors were making huge profits on foreign orders. These foreign orders no longer exist, he added.

"So long as we continue to draft the lives of youths and sadden homes with death, if there is no limitation on profits, we will have to apologize to the people, nor will we contribute to unity and morale," Walsh continued.

"Check books won't win this war. The fighting spirit of the American people alone will meet it. I hope steps will be taken immediately to let the people know that we will not allow munitions makers to pile up more millions and to create more millionaires than ever before."

Seek Ambassador For Soviet Post

(International News Service)

WASHINGTON, Jan. 23.—President Roosevelt is seeking a man well versed in production, military supplies and economic needs for appointment as American ambassador to Russia, the White House indicated today.

The Moscow post has been vacant since Laurence Steinhardt was transferred to the U. S. embassy in Turkey.

Up to America's entry into the war, President Roosevelt had planned to make Maj. Gen. James H. Burns, deputy lend-lease administrator, his ambassador to the Soviet government. The services of Burns are now more urgently needed elsewhere, however.

Tire Dealers To Be Given Break

Amendment To Tire Rationing Order Will Favor Retail Tire Dealers

(International News Service)

WASHINGTON, Jan. 23. — An amendment to the tire rationing order was placed into effect today permitting retail dealers to sell tires back to wholesalers, distributors or manufacturers.

Price Administrator Leon Henderson said that the amendment is intended to provide relief for tire dealers who may wish to lighten their stocks or liquidate completely because of difficult operating conditions.

Under the revised tire order, dealers or wholesalers are also permitted to replenish their stocks of new tires and tubes by presenting certificates and receipts obtained from sales of new tires and tubes to "eligibles" under the rationing plan.

Protect Motorists

Meanwhile, the national highway users conference reported that a summary of pending bills before Congress reveals many are designed to protect automobile owners against tire thefts. Several measures would make stealing of tires and tubes a federal offense, punishable by a year in prison.

A program providing stringent penalties for "tire rustlers" was advanced by the American Automobile Association. Pointing out that reports from many parts of the country indicate the danger of wholesale tire thefts unless strong counter-measures are taken Thomas P. Henry, of Detroit, AAA president, urged that the states immediately enact emergency legislation making tire and accessory theft a felony with severe fines and imprisonment. This should be backed up by passage of the measures before Congress making tire stealing a federal offense, he said.

The AAA head also said that the states should prohibit purchase of tires except through authorized persons or agencies and that state automobile inspection stations should assist by keeping a lookout for signs of tampering with serial numbers of tires offered for inspection.

The automobile organization also announced that reports of the theft of federal motor vehicle use tax stamps from cars have been received, although the effective date of February 1, is 10 days away.

Henry said that while government agencies are doing everything possible to ease the confusion surrounding the task of collecting the use tax, the theft reports are more evidence of the difficulties involved in administering and collecting the levy.

He declared that although the bureau of internal revenue is endeavoring to work out a "stolen stamp" plan upon satisfactory showing that the tax has been paid, the thievery will be brought to the attention of the House ways and means, and Senate finance committees as another "serious difficulty" in handling of the tax.

"While the American Automobile Association has withdrawn its opposition to special federal motor taxes due to war conditions," he said, "It has felt from the first that the use tax is unsound, inequitable and unenforceable."

Your Federal Income Tax

NO. 17
EARNED INCOME CREDIT.

The law allows in computing the normal tax of an individual an earned income credit of 10 percent of the earned net income, but not in excess of 10 percent of the net income. "Earned income" is defined in the law as wages, salaries, professional fees, and other amounts received as compensation for personal services actually rendered. Where a taxpayer is engaged in a trade or business in which both personal services and capital are material income-producing factors, a reasonable allowance as compensation for personal services actually rendered by the taxpayer, not in excess of 20 percent of his share of the net profits of such trade or business, is considered as earned income. "Earned net income" means the excess of the amount of the earned income over the sum of the "earned income deductions," which are the ordinary and necessary expenses properly chargeable against earned income. The entire amount of the taxpayer's net income up to and including $3,000 regardless of the source, is considered earned net income. In no case is the earned net income to be considered to be more than $14,000.

Marie Dionne Will Undergo Examination

(International News Service)

CALLANDER, Ont., Jan. 23.—A specialist was expected to arrive Thursday from Toronto to examine Marie Dionne of Canada's famed quintuplets.

Other than to reveal the impending arrival of the specialist, Mr and Mrs. Oliva Dionne would say little concerning their five daughters, who now are seven years old. It could not be learned immediately from other sources why an examination of Marie was to be made at this time. As far as is known, none of the quints is sick.

(In Toronto it was learned that Dr. John Laing McDonald, noted orthopedic specialist, and a member of the staff of the Hospital for Sick children, was planning a visit to Callander to examine little Marie.)

To Ask Increasc In Relief Grants

(International News Service)

HARRISBURG, Jan. 23.—Gov. Arthur H. James will be asked to approve an increase in relief grants to enable the thousands of persons still receiving public assistance to cope with the rising costs of living, it was disclosed today.

Following a five-hour meeting of the state board of public assistance, the nine members of the policy-making group agreed, said Secretary of Public Assistance Howard L. Russell, to recommend to the governor "that there be an adjustment to meet the rising costs of living for relief recipients."

How to make Pillsbury's
Prune-Filled Coffee Cake
in good taste morning, noon, or night!

Complete recipe:

1. Sift and measure 2 c. **Enriched Pillsbury's Best Flour.** (Two B-vitamins and iron now give added health value to this fine flour, with no change in its unequalled baking quality, creamy color, and bland, wheaty flavor.) Add 3 tsps. **baking powder** (or 2 tsps. double-acting), ½ tsp. **salt,** and ¼ c. **sugar;** sift twice. (Notice the creamy, appetizing appearance of Pillsbury's Best. Every single hour during milling, samples are tested to insure this inviting color.) 2. Cut in ¼ c. **shortening** until quite fine. 3. Add enough **milk** to 2 **egg yolks,** slightly beaten, to measure about ¾ c. Add to dry ingredients; mix only until all flour is dampened. 4. Knead lightly on a floured board a few seconds. (And, in that few seconds, you can picture in your mind's eye the delight your finished coffee cake will give your family. Pillsbury's Best always gives you more confidence in your baking ability. And no wonder! Actual baking tests are made 4 to 6 times a day during the milling of this fine flour, to give it baking quality that never fails.) 5. Roll out into 12 x 10-in. rectangle. Brush with melted **butter;** spread with this filling: 6. Combine ¾ c. chopped cooked **prunes,** ½ c. **raisins,** ⅓ c. chopped dried **apricots,** dash of **salt,** ½ c. **water,** ⅓ c. **sugar** and ¾ tsp. **cinnamon** in saucepan. Cook until thick. Chill thoroughly. 7. Spread ½ of filling on center ⅓ of dough. Overlap ⅓ of dough on filling. Spread with rest of filling. Overlap remaining ⅓ of dough. Moisten edges and seal. 8. Place on greased baking sheet. Make 1-in. diagonal gashes on both sides of loaf 1½ in. apart. 9. Gently tilt each cut section at a slight angle. 10. Brush with 1 **egg white,** unbeaten, combined with 2 tsps. **water.** Sprinkle with 1 Tbsp. **sugar** combined with ¼ tsp. **cinnamon** and ¼ c. chopped blanched **almonds.** Bake in hot oven (400° F.) 15 to 20 min. When you take this tender, lightly browned coffee cake before your family, the compliments you'll get would satisfy any woman! This delicious Pillsbury coffee cake can be made quickly and baked quickly—*there's no waiting for dough to rise.* Why not get a bag of Pillsbury's Best from your grocer and bake a delicious Prune-Filled Coffee Cake this very day!

Common Export Currency Plan

"Export Dollar" Backed By Common Hemisphere Stabilization Fund Likely

IDEA SUGGESTED BY MORGENTHAU

(International News Service)

WASHINGTON, Jan. 23.—Secretary of the Treasury Morgenthau on Thursday expressed the hope that western hemisphere nations will eventually cooperate in creating a common export currency to permit international payments for all foreign trade in one type of currency.

He spoke of creation of an "export dollar" to be backed by a common hemisphere stabilization fund consisting of gold and silver.

Morgenthau explained that should such a common currency be created it would serve only to facilitate international payments and would have no value, except for exchange purposes, within any nation.

The secretary said that such a currency would greatly aid exporters and importers by removing the risk of fluctuations in foreign currency between the time a man sold his goods and the payment was made on delivery to a foreign country.

"If some method could be worked out to settle international balances in the western hemisphere it would be very, very useful," Morgenthau asserted.

He stated that such an arrangement should extend permanently beyond the war years and hoped it eventually would be expended to cover foreign trade of the entire world after the restoration of peace.

Morgenthau's comments were prompted by resolutions presented by the United States at the Inter-American conference among western hemisphere republics in Rio De Janeiro. He interpreted a U. S. resolution calling for a meeting of all finance ministers to consider the creation of an international stabilization fund, as the fore-runner of possible talks on a common export currency.

Three Stricken At State Farm Show

(International News Service)

HARRISBURG, Jan. 23.—Three spectators were stricken, one fatally, while visiting the State Farm Show Thursday. Mrs. Nita McCormick, 69, Montgomery, Lycoming county, died from a heart attack, accodring to Dr. Eugene Elgin, show physician.

A man identified as John Munthler, 73, Bradford, collapsed beside the arena, apparently stricken by a heart attack, while an unidentified man also required medical treatment.

Dies Committee Unconvinced Lash Can Have Navy Post

(International News Service)

WASHINGTON, Jan. 23.—Members of the Dies committee on un-American activities indicated today that they were still unconvinced that Joseph Lash, former official of the National Youth Congress, should be given a post with the naval intelligence service.

The statements came after the committee secretly heard testimony from Lash, a protege of Mrs. Eleanor Roosevelt. Although nothing was officially said about it, it was known that the committee was inquiring into reports that Lash is seeking "clearance" by the navy so he can obtain a commission.

The Dies committee has several times branded Lash as a Communist sympathizer and it was understood that he was given an opportunity to answer the charges in the secret hearing late yesterday.

"You know perfectly well that I don't think he should be allowed to enter the navy—I never did and I don't now," Rep. Starnes (D) Ala., a member of the committee declared, after the hearing.

Trucking Service Extension Given

By ARTHUR C. WIMER
(Special Washington Correspondent, New Castle News)

WASHINGTON, D. C., Jan. 23.—The Interstate Commerce Commission has authorizel J. V. Bowman, Jr., and Glenn G. Peebles, doing business as Bowman & Peebles of New Castle, to extend its trucking service by transporting brass fittings between Frankfort, Ind., and Camden, N. J.

The commission, however, has denied the application of the New Castle firm for permission to serve as a motor vehicle carrier of special commodities between certain points in Pennsylvania, Illinois, Indiana, Ohio and West Virginia. One reason for this extension would have been to transport products of the Elliott Brothers Steel company between New Castle and such Ohio points as Youngstown, Niles, Warren and Cleveland. The ICC rejected this application upon the grounds adequate facilities for such transportation were already available.

Production of reclaimed rubber is being expanded steadily and is now in excess of 300,000 long tons annually, the department of commerce reports.

Red Cross First Aid Lessons

LESSON 3
How To Treat Wounds

Punctured wounds require special consideration, because they do not bleed freely; they are difficult to clean out; it is difficult to apply an antiseptic well into the wound; and, since no air can get to the wound, there is possibility of lockjaw. The first aid treatment of a punctured wound consists of encouraging bleeding, being careful not to bruise the tissues, and then working iodine well down into the wound and, of course, a physician's advice must be sought.

In the case of powder burns, some actual burning of the skin may be present, but the chief danger is usually from the many very small punctured wounds, which carry the tetanus germ or lockjaw. Gunshot wounds are treated as any other wound. Always see the doctor.

In the case of an infected wound, symptoms of which are easily discernible, such as pain, swelling, redness, heat, pus, red streaks, swollen glands or tenderness, as distinguished from pain, a doctor should be called immediately. But while waiting for a doctor, application of hot salt solution can be used. Three (3) heaping tablespoonful of ordinary salt, or twice this amount of Epsom Salts to each quart of water makes a good solution, which should be used as hot as is comfortable.

Warns of Severe Shock

In the case of shot or deep stab wounds, keep the patient lying quietly on his back, and keep him warm. Do not give stimulants, as there may be internal bleeding. Shock is usually very severe in these cases.

A cut with intestine protruding is usually caused by a knife, and patient should be kept on his back, with coat or pillow under the knees. Cover injured part with clean cloth and keep moist, because if these delicate structures become dry, they will suffer almost fatal damage from this cause alone. Warm salt water should be used.

In the case of wounds in which there is a foreign body, such as splinter of wood, etc., if the foreign body is near the surface, it can be picked out. Sterilize the skin with iodine.

If the splinter has to be removed by a knife point or needle, sterilize the instrument to remove the splinter, then make it bleed if possible—thus washing it from the inside out.

For an eye injury, first of all, do not rub, and do not attempt to remove an imbedded body. Close the eye. Grasp the lashes of the upper lid and pull out and down over the lower lid. This gives the tears a chance to wash the foreign body to the inside corner, where it can be lifted out with the corner of a handkerchief.

If this method fails look under the lids. Look under the lower lid first. If this is not successful, grasp the central lashes of the upper lid between the thumb and index finger of the right hand and pull down and away from the eyeball. Have the patient look down. Place the smooth end of a pencil or match, or the end of the left thumb, on the upper lid about half an inch from its edge, and press downward, at the same time quickly turning the lid upward.

If the foreign body is seen, gently remove it with clean cotton or an applicator, or the corner of a clean handkerchief, moistened with clean water or boric acid solution.

If chemicals, such as lime, plaster, cement, acids, caustic soda or potash are in the eye, wash immediately using great quantities of water immediately.

For a nose bleed, it may be stopped by having the patient sit up with head thrown slightly back, breathing through the mouth. Loosen collar and anything tight around the neck. Apply cold, wet compresses over the nose.

Healy Withdraws His Resignation

(International News Service)

WASHINGTON, Jan. 23.—The White House today announced that Robert E. Healy, at the request of President Roosevelt, has withdrawn his resignation from the securities and exchange commission.

Healy tendered his resignation from the SEC recently in protest over elevation of Ganson Purcell to the chairmanship, succeeding Edward C. Eicher who was appointed to the federal bench.

Healy is the only remaining member of the original SEC, and is a native of Vermont.

We'd better move fast. We may pay a terrible price for dumbness if we don't build plane factories far inland.

Grove City Troops Now In Southwest

GROVE CITY, Jan. 23.—About 100 officers and men from this vicinity, serving with the 28th Division, have reached a new base camp in the southwest. Military censorship prohibits publication of the exact location, although families of local soldiers have received letters giving their address.

The men are quartered in winterized tents, equipped with wooden floors and sides, gas stoves and electricity.

Resume Flying At Grove City

GROVE CITY, Jan. 23.—Because the local Kiwanis club accepted literally the national slogan, "Keep 'Em Flying," student pilots at the Grove City airport were able to resume flights yesterday.

The airport had been closed for three weeks by a federal ruling that guards must be maintained at all fields, 24 hours a day. Spurred by A. J. Schell, local flying enthusiast, and a Kiwanian, the club arranged with its members and other volunteers to provide the guard service, which was instituted yesterday. Planes were flown from New Castle and instruction was resumed by Findley Wilson. Ten students each from Grove City and Slippery Rock colleges, as well as a number of private citizens, were able to resume instruction.

Four Kiwanians have been placed in charge of six-hour daily periods, to assign volunteer to guard duty. A. J. Schell has the period from 6 a. m. to noon; Lee McCandless, noon to 6 p. m.; Harry Shellito, 6 p. m. to midnight, and Frank Wells, midnight to 6 a. m.

New Brighton High Here On Saturday

New Castle Idle Tonight Due To Commencement; Game Scheduled Saturday

Four-Way Tie In Section Three Will Undoubtedly Be Broken Tonight

New Castle high school basketball team will play New Brighton high at the George Washington high floor on Saturday night, the game having been shifted to Saturday due to commencement exercises here this evening. In the preliminary game at 7 o'clock, the reserves of both schools will tangle.

At the moment there is a four-way tie for the Section 3 leadership—New Castle, Aliquippa, Ambridge and Beaver Falls, but tonight should see a temporary leader at least. Ambridge will play at Beaver Falls and Ellwood will play at Aliquippa.

Lineup Will Stand

New Castle's starting lineup for the New Brighton game will be the same as started the Beaver Falls and Ambridge games, with Bobby Lee at one forward, Joe Ciazza at the other forward, Melichar at center, and John Zubkowsky and Burris at the guards.

It was announced today that "Red" Ross, Bob Cooper, Tommy Parou and Bobby Stewart, the latter from the reserve list, will be eligible for the two remaining games in the frist half. New Brighton and Ellwood City. The New Castle team will windup the first half by playing at Ellwood next Tuesday evening.

Ambridge Deflated

New Castle having deflated the supposedly hot Ambridge team the other evening will fight hard to stay on the top rung in the sectional race. New Castle has a smooth, well balanced team coming up for the second half of the loop race and will give the other teams plenty of trouble.

New Castle's next home game following the one here tomorrow night will be on Friday, January 30, with Butler high appearing at Washington high court for a non-league engagement.

The next Section 3 game after the New Brighton game at home, will be with the Aliquippa team. New Castle will be out for revenge over the Steelers for that upset handed them on January 9.

Second-Epworth Battle Tonight

The New Castle Church Basketball league will have one of its hardest-fought games of the season tonight when the league-leading Second U. P. team will battle the Epworth team, runnersup. This game is the last on the evening's card.

The Second U. P. is favored to win, with a line-up of stars such as the Pitzer brothers, Johnny McGary and others, but Epworth will fight hard to try and upset the County Line street boys.

In the first game the Baptists play the First Presbyterians, and in the second game the Croton Methodists play the Mahoning Methodists.

Geneva Hopeful Of Taking Titans

Big Sectional College Battle At Beaver Falls Next Thursday

(Special To The News)

BEAVER FALLS, Jan. 23.—Geneva's rising Covenanters, conquerors of Duquesne university's mighty Dukes, hope to continue their upsetting pace when they meet the Westminster Titans Thursday night, Jan. 29, at Beaver Falls. All indications point to a complete sellout when Coach Grover Washabaugh brings his state champion Titans to the Beaver Falls high school gym.

If Thursday's game parallels the Duquesne game at all, it should be a thriller. You can be sure that both teams will be ready for this one, Geneva having a 10-day rest and eager to continue to drop the mighty fro mtheir pinnacles, and Westminster with a nine-day rest, out to defend its state title. Last year the Titans defeated the Covies twice in their 20 won and one lost campaign. The Old Gold and White lost a thriller last year to Westminster by a 52-47 score, but was outclassed in the return game, 55-40. It was only two years ago that the Covies defeated the Blue and White on their own floor by a one-point margin when Ralph Taggart tossed in a last-second field goal.

The Titans have played the Covies longer than any other rival in basketball. The series started in 1897 and the record stands at 34 for the Titans and 32 for the Covenanters. The series is probably the oldest in the district and is traditionally thrill-packed, and according to all pre-game dope, this year's contest should be no exception.

Pulaskis Wallop Youngstown Five

The K. Pulaskis Big Five basketball team got "hot" last night at the K. P. hall and ran up a count of 72 to 49 on the Youngstown Leeds. The Ohioans had enjoyed a winning streak of eight straight games before tangling with the Pulaskis.

Rychaj with 25 points was the high pointman and the outstanding star in the game, along with Check, Telesz, Hnat and the Matyas brothers.

The summary:

HERE AND THERE IN SPORTS LAND

Purdue Boilermakers won two and lost five football games in '41 and when the board of directors met yesterday at LaFayette, Ind., they fired Mal Edwards as athletic director but retained him as coach until December 31, 1942.

Lou Novikoff who started out as the 1941 "rookie of the year" and when his hitting became almost extinct he was sent to Milwaukee of the A. A. Today in Los Angeles he stepped on the sacles and weighed 206 which shows he has been removing weight. He wants to let down to 185.

Les Cummings of New York, defeated Jimmy Carroll of Buffalo in the national squash racquets tourney which opened at Cleveland yesterday, 15-8, 15-5, 15-8. He is the defending champ. Other Thursday winners were Don Martella, Wilmington, Del., Jack Andrews, Detroit, Eddie Schaeffer, Baltimore and Jim Tully, Pittsburgh.

Woody English, former shortstop with the Cubs, plans to return to baseball after three years absence. He has been reinstated after having been declared ineligible for failure to report to the St. Louis Cardinals in 1939. He is 35 years of age.

In a great uphill battle in the three-cushion billiards tourney in Chicago yesterday, Welker Cochran of San Francisco defeated Otto Rieselt of Philadelphia, 50-45 in 73 innings. It was a play-off match, Cochran having been taken ill during a game Tuesday. The victory left Cochran and Willie Hoppe, defending champion, deadlocked with six wins and one loss.

FAIR OR FOUL

By LAWTON CARVER
INS Sports Editor

NEW YORK, Jan. 23.—The biggest golf tournament, with the greatest entry list ever received for such an event, is the aim of the United States Golf Association to raise funds for war relief and to further the national physical fitness program.

It will be known as the "hale America" open tournament. Chicago will be the scene, the exact club yet to be selected, and most of the greats of the past will be invited to participate without having to qualify. Bobby Jones, inimitable grand slammer, and Chick Evans, who in 1916 was the first to win the national open and national amateur in the same year, already have been asked to play.

The U. S. G. A.'s plans for this event assure a large, worthwhile bundle of cash as further aid for the war effort. Yet this will not be a true open championship, for the U. S. G. A. has cancelled the open proper because of a feeling that with so many players in and headed for the army, the premier golf event of the nation should be permitted to lapse for the time being.

For Good Cause

This "hale America" open is not without precedent. Our divot-diggers of the middle age group probably will recall that during the last war an open patriotic tournament was held at Chestnut Hill, Pa., and Jock Hutchinson emerged the winner with rounds of 76, 73, 71, 72, for a total of 292. Not bad shooting, either.

The forthcoming tournament will be held in conjunction with the Chicago open during June, with the Professional Golf association cooperating along with all other groups.

The scope of this tournament can be imagined from the procedure that will be followed. There will be district qualifying rounds on May 25 at 50 or more points throughout the nation, with all professionals and amateurs handicapped at about six strokes or less eligible. The entry fee for these rounds will be $5, the proceeds to be turned into defense bonds and to be used for necessary expenses in carrying the event through.

The next step will be for the qualifiers to appear in sectional "hale America" tournaments at 12 major centers early in June, and finally the survivors would play in the main event at Chicago June 18-21. The total field in this grand finale would be between 50 and 75 players. The event would be combined with the Chicago Open.

Joe Dey, U. S. G. A. secretary, said that with everything more or less in the formative stage, there was no way to estimate the amount of money that will be raised. However, beside the entry fee for the events, gate receipts will be collected and the total probably will run to big figures.

Ouimet Is Chairman

Francis Ouimet, of Boston, an internationalist of long-standing prominence and first amateur to win the National Open back in 1913, is chairman of the U. S. G. A. championship committee and as such will direct the event with the co-operation of Thomas C. McMahon, president of the Chicago District Golf association. Sectional and district associations at other points will be asked to handle details for the preliminaries.

The winner won't be the open champion because there can't be any such flora or fauna during the war, but he will be the next thing to it. Craig Wood, as you may recall, is the present wearer of the crown, which he won't get a chance to defend until the war is over.

What it all amounts to is a flock of sectional qualifying rounds, sectional "hale America" tournaments and a grand finale bringing to an end the biggest tournament ever staged.

If your handicap is down as low as five or six—the exact figure yet to be set—you might just as well get into it along with the rest.

Gersons To Play Monaca Saturday

The Gerson basketball team will go to Monaca on Saturday night to play the fast Monaca All-Stars. The players are to meet at 5:30 o'clock at the usual place to make the trip.

The Gerson team marked by the recent defeat handed them by the St. Vitus team, will fight hard to trim the Monacalans. The Gersons to a man have expressed a desire to meet the St. Vitus team again in a game at the Arena floor, not being satisfied yet that the Saints are the better ball club, following the 49 to 45 defeat handed them on Wednesday night.

SPORTS WORLD RAMBLINGS

Tidbits about this and that:

Possibilities of the Lawrence County Baseball league functioning this season are as black as the inside of a silo. One of the loop's top men, who prefers remaining in the background until official action is taken, today remarked "it looks as though it will be a difficult problem getting enough teams interested."

He also pointed out that with so many Lawrence county sandlotters in service and the vast national defense program clicking in high gear, it seems hardly possible to operate a league the size of the county circuit. Managers of various teams are being queried after which official action will be taken.

Efforts were made to book Westminster and Duquesne university for a benefit cage tilt on Friday, February 5. Due to the fact that the Titans are billed to meet six opponents starting on January 29 and ending February 10, officials deemed it wise to pass up the game. Westminster may participate in such a game at the conclusion of the regular season, this corner has been informed.

In your spare time, give an occasional thought to two "must attend" events—the President's Birthday ball on Friday, January 30, and the benefit boxing show carded for February, also for the same cause . . . With the addition of a few more rinks, the county ice skating fraternity appears to have increased immensely.

Due to the rubber rationing program, winners of Madison Square Garden basketball games no longer will be awarded the ball for their trophy chest. As a result, Promoter Ned Irish will save about $1,000 and at the same time keep abreast with one of Uncle Sam's orders . . . Speaking of rubber, Bob Pastor, the greatest bicycling boxer in the game, may have trouble getting a new set of tires in case he has to meet Louis again.

Add pipe dreams: Hans Lobert, new Philadelphia manager, announces that he expects his Phillies to steal 1000 bases this season. What an order! . . . The public has been giving Alexis Thompson's pro tennis troupe the go by. He figures to lose $50,000. With a few more millions still in his kicks, Alexis should feel the loss . . . With the weather in Russia in the 35-below-zero region, here's hoping the Germans freeze their feet.

Cathcart High Scorer On New Wilmington Team

(Special To The News)

NEW WILMINGTON, Jan. 23.—With just over half of the 21-game schedule completed, Kenny Cathcart, lanky center, paces the New Wilmington High school basketball team in scoring with a total of 104 points, for an average of 9.4 points per game.

The team as a whole has scored 311 points in 11 games, for an average of 28.3. Their record shows nine wins and two defeats, of which 3 victories and both the losses were in Section 20 competition.

Norb Borowicz, veteran guard, is second in the race for individual scoring honors, with 47 points, closely pursued by "Bus" Green, with 46, and Charley Evans with 43.

Despite the fact that the varsity team is still in the running for the varsity title, much attention is being paid to the Greyhound reserves, coached by Paul Minner, who have won 11 games without a loss this season.

New Castle Rifle Club Cards Warren

The New Castle Rifle club will have a Penn-Ohio league shoot this evening at the Cathedral range with the Warren, O., rifle club, at 7:30 o'clock, it was announced by George Finley, president of the New Castle club.

The locals are going to make a determined bid for the second half championship, having finished second to Niles in the first half of the loop season. New Castle has held the championship for a good many years, and will battle to retain their laurels.

CONZELMAN IN MOVIES

Jim Conzelman, coach of the Chicago Cards, will spend the next few months in Hollywood writing movie shorts.

Craine Is Luisetti Of Section 20 Loop

Wampum High Star Center Has Already Hit Cords For 83 Markers

FOUR FAST FRAYS ON CARD TONIGHT

Coy Craine, expert Wampum high center, currently is the "Hank" Luisetti of Section 20 with an average of approximately 15 points per game.

The Cement City athlete, who has poured 83 markers in six clashes, also holds the individual high for one fray—23 markers. Craine sports a 33 point edge over tall "Kenny" Catchart, of New Wilmington high, who is perched in second place with 50 points. Bradley, of Mt. Jackson is next with 47 points.

If you're hunting for reasons why Bessemer is setting the pace in the circuit, the names of Kresevich, Grubisa and Tasota will suffice. The trio has contributed 114 points in Bessemer's five consecutive league triumphs. Kresevich and Grubisa, deadlocked for fourth place scoring honors in the circuit, have arched 42 points each.

East Brook's C. Jameson, one of the deadliest shooters in the county, has strung together 39 markers. Black of Princeton, Grossetti, of East Brook, Annarella and Baynolds, of Union township, Buly, of Shenango, Bader, of Mt. Jackson, and F. Bennett, of Wampum, are bunched together for remaining honors.

Four Games Tonight

League rivals continue their drive for honors tonight. Bessemer's fray with Shenango Township, carded for the East New Castle hardwood, will undoubtedly attract a full house as the "Wildcats" attempt to halt the march of the league leaders.

Bessemer has a comfortable lead by way of five straight wins. Shenango Township, which has lost several eyelash decisions, can break into the .500 mark by humbling the powerful red and black clad cage slickers.

Mt. Jackson high takes on another of the league's bigwigs in Mt. Jackson, entertaining Wampum high. The "Cementers" crawled into second place by subduing Union Tuesday. Victorious over both Union and East Brook, the Jacks are gunning for the Wampumites. The clash should be one of the features on the bill.

Bent on getting back on the victory rail, Union Township high tosses shots with New Wilmington high's "Greyhounds" on Union floor. The Scotland Laners rolled up three straight wins before colliding with Mt. Jackson and Wampum. New Wilmington hops into third place by brushing past the Unionites tonight.

Princeton-Brookers

East Brook high plays at home, engaging Princeton high. Following their victory over Wampum high, the Brookers have been on the short end in their last four games. Princeton bids for its first league triumph against a half dozen losses.

New Castle high, originally billed to face New Brighton here tonight, rests until Saturday night, battling the rugged valley flipping unit on George Washington junior high floor, in a Section III joust.

In view of the fact that the locals are deadlocked for the top berth, a capacity crowd is anticipated.

The game will follow a prelim starting at 7 o'clock.

TIN NOW MINED IN CANADA.

(International News Service)

OTTAWA, Can., Jan. 23.—Although there was no production of the mineral in Canada prior to the war, tin now has been added to the list of resources being mined in the Dominion, according to the Canadian Department of Mines and Resources. In recent months the Consolidated Mining and Smelting Company has been producing small quantities of tin on a semi-commercial basis at Trail, British Columbia. The tin is a by-product of the company's lead, zinc and silver operations and meets approximately 15 per cent of the country's present war requirements.

Offer To Raise Any Flag Pole

Organizations wishing to fly the American flag in front of their building need not worry about getting the flag pole up. Mooney Brothers today offered to erect the flag pole for any organization that wishes it done and the service will be free.

"We have a mobile truck crane that will raise any flag made," said William O. Mooney. "Any organization wanting to get a pole raised can get it done gratis by calling either myself or my brother, Samuel A. Mooney.

"When the foundation is dug and the pipe sleeve down ready for the pole we will have our truck crane on the job in a short time and place the pole."

FROM ME TO YOU

By MESSALI

Can you imagine a woman saying that she would not do anything to help in this National Defense . . . She said why should she be bothered, her husband was beyond the army age and they didn't have any children or any near relatives in the service and she couldn't be bothered learning anything that she would never need. This type of person will be the first to call for help in case an emergency should arrive. It seems that some people are blind to the fact that this nation is at war . . . they have no idea what is going on. It's lucky for us that the majority of the people are not like this family . . . where would we be today . . . look back over our history. Men and women who made this country what it is today were people who gave . . . gave with everything they had.

* * *

Today is fish day . . . here is something that you might be interested in . . . Fish which contain more than five per cent fat are called fat fish. Among these are butterfish, catfish, eels, herring, mackerel, salmon, shad, smelts, lake trout, tuna and whitefish. Medium fat fish contain from two to five per cent fat. These include halibut red white perch, pompano and brook trout.

According to a report from one auto dealer . . . new cars are being shipped them . . . but a tag has been attached that these cars cannot be sold until 1943. Here we are away ahead on our models. But if going without a new car means liberty and freedom in the future as we have known in the past . . . who won't be willing to walk or ride a kiddie car.

* * *

Sometimes we get ourselves into very awkward situations . . . here are a few that have just popped into our mind . . . if you can think of any others why not send them in . . . Here is what we have to say today:

. . . . steamed eyeglasses, arms full of bundles, in a crowded restaurant.
. . . . carrying a 20 foot plank in a windstorm.
. . . . uncut lettuce salad at a formal dinner.
. . . . a tip in order and nothing smaller than a five dollar bill in your pocket.

Don't forget the classified ad page . . . it works wonders when you want to sell or buy.

STOCKS

Market Prices Little Changed

Majority Of Issues Are Only Fractions Off Previous Closing Levels

(International News Service)

NEW YORK, Jan. 23.—The stock market continued its aimless drift today, with the majority of issues holding fractions to either side of previous closing levels.

One feature was a runup of more than a point in DuPont, which has been hitting new 1941-42 bottoms almost daily for over a week.

More modest gains were chalked up by Air Reduction, Santa Fe, Westinghouse Electric, Montgomery Ward, American Airlines, Standard Oil of N. J., Public Service of N. J., American Can and Eastman Kodak.

Procter & Gamble was a soft spot, dropping almost a point to a new 1941-42 low.

Also behind minus signs were U. S. Steel, Bethlehem, Chrysler, General Electric, United Aircraft, Texas Co., U. S. Rubber and American Telephone.

COMMITTEE APPROVES GIGANTIC FUND FOR U. S. FIGHTING PLANES

(Continued From Page One)

pean types, Gen. Arnold said that the United States is now getting quantity and quality of planes and "we are equal to any nation and ahead of a lot of them."

Taking the army's P-40 series, which were especially criticized in the report, Gen. Arnold proudly related these accomplishments of the little pursuit ships:

Volunteers Bag Jap Planes

Since Dec. 7, date of Japan's sneak attack on Pearl Harbor, he said, "American volunteer airmen, many using P-40's, have bagged from 90 to 100 Japanese planes and this was done with the loss of only three planes and three men."

One squadron in two engagements—presumably British flyers using American planes—shot down 13 enemy planes, including two Messerschmitt 109F's and lost only one plane even though they attacked a superior hostile force.

On the Russian front, four P-40's—presumably flown by Russians—shot down eight Messerschmitts.

Once, outnumbered eight to one against the Germans, pilots in P-40's shot down 60 per cent of the enemy squadron.

The planes have operated in steaming North Africa and in frigid Russia when some other planes were grounded.

In the Philippines, as Navy Secretary Knox previously reported, two American flyers in P-40's bagged six Japanese planes.

Nazis Still Building

The air corps official confessed that the Germans are still building high type planes and showing no signs yet of lack of materials, but Brig. Gen. O. P. Echols, assistant for air corps procurement, said:

"We are up to the Germans, and I think in certain respects ahead of them. I think the new pursuit planes the general refers to are the best in the world, and I think in our heavy bombers we are way ahead of them."

While careful not to disclose numbers planned of various types, General Arnold said that in obtaining the 23,000 fighters and 10,000 trainers contemplated in the present bill, concentration will be upon heavy bombers.

The general confessed that even this huge sum, on top of previous appropriations, will not quite come up to the President's goal of 60,000 planes this year and 125,000 next.

"But it will come close and we will have the rest of the program ready soon," he declared.

May Go On 7-Day Basis

Stressing the necessity for "a continuous flow of aircraft," Arnold told the committee consideration was being given to placing the entire air industry on a 24-hour-day 7-day-week basis.

Lt. Gen. William S. Knudsen warned that the present program will require 50 per cent of the total manufacturing capacity of the United States, but he declared that "it will be done."

Other officials testified that the pilot training program and air field development are keeping pace with plane construction, while the committee was assured that most new building facilities will be erected inland away from vulnerable coastal points.

General Arnold said that since Japan's attack "we are not only accelerating the attainment of our orignal state of preparedness, but we are also conducting combat operations and must concurrently build toward our offensive knockout blow.

"Our enemies, with their clear aggressive policies,' he said, "have the jump on us by having selected their own time for war and their own objectives for attack. By virtue of their national policies, they have long ago laid and pursued their plans for aggressive war. Now we, by decisive action, must counteract the time advantage of the enemy."

EIGHT JAPANESE SHIPS DAMAGED BY DUTCH BOMBS

(Continued From Page One)

dropped on the two cruisers and one large transport. Two hundred pound bombs fell on the other ships.

All were officially chalked up as "direct hits," and it was regarded as a fair assumption that all the vessels were measureably damaged.

A communique announcing the victorious raid said:

Direct Hits Made

"Today bombers and fighters of the Royal Netherlands army carried out an attack on a concentration of Japanese ships in the middle of the Macassar Straits between Borneo and Celebes.

"Direct hits by bombs of 300 kilograms were scored on one large warship, one heavy cruiser, one cruiser and one large transport ship.

"Furthermore, one destroyer, two large transport ships and one smaller ship each was hit with bombs of 80 kilograms during a dive-bombing attack by our fighters.

"A total of 12 direct its on eight ships were made. There were no losses on our side."

Thus the Dutch again meted out to the Japs the same type of aerial punishment inflicted at the outbreak of Pacific hostilities upon the British battleship Prince of Wales and the battle cruiser Repulse.

Always guarded in their official announcements, the Dutch claimed no sinkings, but it was regarded unlikely that all of the ships attacked could have escaped complete destruction.

The Straits of Macassar from the southern arm of the Celebes sea. The Jap ships probably were operating out of Mindanao in the Philippines.

The Jap air force, however, continued its own attacks. Sabang, on the Island of Wai five miles off the northern tip of Sumatra, was lightly bombed but an attempt to attack two ships failed, it was said.

One Japanese plane dropped incendiary bombs on the Gorontalo airport on the Minahassa peninsula of Celebes, causing little damage, while 27 enemy fighters attacked the airport at Palembang on Sumatra. Two persons were wounded.

A new Jap bombing attack was made yesterday in Belawan in Deli, northern Sumatra, causing slight material damage and wounding 16 persons.

Dutch planes meanwhile again bombed Kuching, the Jap-held capital of Sarawak, setting storage yards at the river mouth on fire.

DRIVER IS HELD

Wilbur R. Newton, Wampum, was arrested last night by Patrolman Ray Showalter on the public square on a charge of operating a motor vehicle while intoxicated. Following an examination by a physician he was pronounced intoxicated according to Police Chief Willis G. McMullen. He was held in the city jail pending the placing of a formal information against him, some time today, the chief said.

CHECK FORGERY CHARGED

(International News Service)

PITTSBURGH, Jan. 23.—Harold Critchlow, of New Castle, today was committed to jail in default of $500 bail after a hearing before U. S. Commissioner Roger W. Knox on charges that he forged and cashed a U. S. government check totaling $40.20. The check was payable to Roy G. Ritchie, also of New Castle.

ARGENTINA AGAIN SNARLS CONFERENCE

(Continued From Page One)

for such a conflict. He indicated Argentina would not subscribe to the resolution calling for a rupture of relations with the Axis.

Uncertainty Persists

("I don't believe an attack against one American country means that all other American countries are automatically belligerents," Castillo said. "I believe that Argentina may serve the United States better by being neutral and not becoming a belligerent, because our ships can now go anywhere untroubled.")

In Rio De Janeiro, there was a great deal of uncertainty regarding Argentina's actual intentions.

Castillo was reported to have submitted a formula on the Axis rupture issue under which the signatory nations "if they wish may break off relations" with the Axis powers. This would convert what had been intended as an act of continental solidarity into an optional proposition.

Some members of the various delegations took the view that the conference from now on "will not waste further time" trying to change the Argentine stand.

Chile has now approved the revised text of the resolution and the 20 nations other than Argentina plan to bring the issue to a showdown today.

This session will begin this morning and the delegates hope to proceed with an actual vote by 4 p. m.

Consequently, it was reported, Castillo has until that hour to communicate to the Argentine delegation his "final decision."

REINDEER IS ARCTIC

(International News Service)

OTTAWA, Canada.—Reindeer in the Canadian Arctic now number approximately 8,000 head, derived from the 2,370 animals brought from Alaska and placed in the Mackenzie Delta area in 1935. The main herd contains around 5,000 deer and the remainder are in two herds under native management. One of the latter contains 2,000 and the other 1,000 animals.

A California librarian unearthed a Pennsylvania Supreme Court ruling which held that, for legal purposes, a bicycle is an animal.

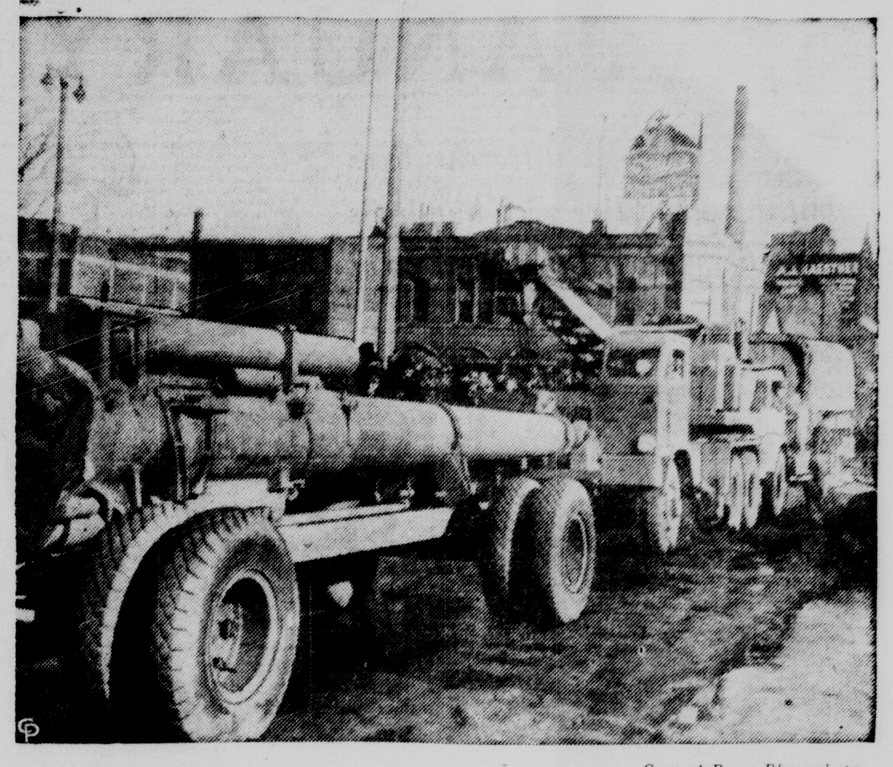
LARGEST MOBILE GUN STARTS TRIP EAST FOR TEST



—Central Press Phonephoto

Citizens of many towns between Milwaukee and the Aberdeen Proving Grounds in Maryland will get a glimpse of this huge 240-mm. howitzer, largest mobile gun ever built, as it is hauled eastward for firing tests. The big gun is pictured as it left Milwaukee, where it was manufactured.
